rating would be considered.

d) There will not be any deviation between the intended allocation and actual allocation except the following.

i. There can be positive variation in the range w.r.t. rating i.e., scheme may invest in papers of higher rating in the same instrument than indicated.

ii. At the time of building the portfolio post NFO and towards the maturity of the scheme, there may be a higher allocation to cash and cash equivalents.

- iii. The above allocation may vary during the duration of the scheme. Some of these instances are (i) coupon inflow; (ii) the instrument is called or brought back by the issuer; (iii) in anticipation of any adverse credit event (iv) CPs/NCDs of desired credit quality are not available or the Fund Manager is of the view that the risk-reward analysis of such instruments are not in the best interest of the Unit holders. In case of such deviations, the Scheme may invest in Bank CDs having highest ratings (i.e. A1+ or equivalent), TREPS, Reverse Repos and T-Bills. Such deviations may exist till suitable CPs/NCDs of desired credit quality are not available.
- iv. The scheme shall not invest in unrated debt instruments at the time of initial investment, however in due course of time if a rated debt instrument gets downgraded, the scheme may continue to hold the same till maturity. For this purpose, unrated debt securities shall exclude instruments such as triparty repo on Government securities or treasury bills, Reverse Repo and such similar instruments to which rating is not applicable.
- v. Change in Asset Allocation: In accordance with SEBI Circular No. SEBI/HO/IMD/DF2 /CIR/P/2021/024 dated March 04, 2021, the above investment pattern is only indicative and may be changed by the Fund Manager for a short term period on defensive considerations, keeping in view the market conditions, market opportunities, applicable SEBI (MF) Regulations 1996, legislative amendments and other political and economic factors, the intention being at all times to seek to protect the interests of the Unit Holders, up to 30 Calendar days.

The SEBI circular SEBI/HO/IMD/IMD-II DOF3/P/CIR/2022/39 dated March 30, 2022, states that in the event of deviation from mandated asset allocation mentioned in the Scheme Information Document (SID) due to passive breaches (occurrence of instances not arising out of omission and commission of AMCs) rebalancing period is 30 business days for the scheme. In case the portfolio of the scheme is not rebalanced within 30 business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall i. not launch any new scheme till the time the portfolio is rebalanced ii. Not to levy exit load, if any, on the investors exiting such scheme.

Reporting and Disclosure Requirements: i. AMCs to report the deviation to Trustees at each stage. ii. In case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme: 1. AMCs have to immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced. 2. AMCs shall also have to immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced. 3. Subject line of the aforementioned emails / letters would clearly indicate "breach of" / "deviation" from mandated asset allocation. iii. AMCs have to disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines. The above mentioned norms shall be applicable to main portfolio only and not to segregated portfolio(s).

The reporting to Trustee shall be initiated immediately after the expiry of the mandated rebalancing period (i.e. 30 business day). The scheme wise deviation of the portfolio (beyond the limit specified) from the mandated asset allocation beyond 30 business days shall also be disclosed on the website of UTI AMC.

e) The above scheme shall be in compliance with the relevant SEBI guidelines and UTI AMC's investment policy at the time of investment.

Risk Profile of the Scheme

Mutual Fund investments are subject to market risks. Please read the SID carefully for details on risk factors before investment. Past performance of the Sponsors / AMC / Mutual Fund does not guarantee future performance of the scheme.

UTI Fixed Term Income Fund - Series XXXVI – I (1574 days) (UTI FTIF - Series XXXVI – I (1574 days)) is only the name of the scheme and does not in any manner indicate either the quality of the scheme or its future prospects or returns. There may be instances where no IDCW could be made.

- 1. Scheme Specific Risk Factors & Risk mitigation measures:
 - a. The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as interest rates, currency exchange rates, changes in policies of the Government, taxation laws or policies of any appropriate authority and other political and economic developments, a specific sector or all sectors including debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.
 - As the scheme is close ended, the assets that mature on or before the date of maturity of the scheme are purchased immediately after the New Fund Offer and are normally held till the maturity of the scheme thereby nearly eliminating interest rate risks. Thus the impact of risk factor mentioned above would be minimal.
 - b. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The inability of the Scheme to make intended securities purchases due to settlement problems could also cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme's portfolio due to the absence of a well developed and liquid secondary market for debt securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in the Scheme's portfolio.
 - c. Though it is the endeavor of fund manager to invest in debt securities maturing in line with the maturity of the Scheme there could be instances of not finding debt instruments with appropriate maturity date and hence there may be reinvestment risk. Investments in debt instruments are subject to reinvestment risks as interest rates prevailing on interest or maturity due dates may differ from the original coupon of the bond, which might result in the proceeds being invested at a lower rate.
 - d. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the regulatory limits, the AMC may have chosen to invest in unlisted securities as permitted for investment by the scheme. Listed securities which may become unlisted in future may increase the risk in the portfolio.
 - e. The Scheme may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include, the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Usage of derivatives will expose the Scheme to certain risks inherent to such derivatives.
 - f. The scheme intends to deploy funds in money market instruments to maintain liquidity. To the extent that some assets/ funds are deployed in money market instruments, the scheme will be subject to credit risk as well as settlement risk, which might effect the liquidity of the scheme.
 - As the said scheme is a close ended scheme with no redemption till maturity, the risk factors mentioned in Point No. b to d above, will be minimal.
 - g. Debt and Money Market securities investments under the scheme will also be subject to the following risks:
 - (i) Interest Rate Risk / Reinvestment Risk: Scheme would manage the interest rate risk & reinvestment risk by adequately matching the duration of assets in line with the duration of the scheme.
 - (ii) Credit Risk: Scheme would predominantly invest in highly rated securities where there is an internal credit comfort which would reduce the probability of credit risk.
 - (iii) Concentration Risk: The scheme would have modest presence of issuers with reasonable limits which would mitigate the credit concentration risk.
 - (iv) Portfolio Risk: By monitoring the return deviation and adequately managing all the above risks namely interest rate risk, reinvestment risk & credit cum concentration risk the scheme would mitigate the overall portfolio risk.

- h. Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. For e.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.
- i. Redemption will be done on the maturity date at the Net Asset Value on the date of maturity. As per SEBI guidelines, the AMC/MF shall not redeem the units of the Plan before the date of maturity. Redemption will be done on the maturity date at the Net Asset Value on the date of maturity. As per SEBI guidelines, the AMC/MF shall not redeem the units of the scheme before the date of maturity.

2. Risk factors associated with Creation of Segregated Portfolio -

- a. Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer
- b. Security comprises of segregated portfolio may not realise any value.
- c. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.
