I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors

1. Investment in Mutual Fund scheme units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
2. As the price / value / interest rates of the securities in which the Scheme invests fluctuate, the value of your investment in the Scheme may go up or down.
3. Past performance of the Sponsors / AMC / Mutual Fund does not guarantee future performance of the Scheme.
4. UTI Focused Equity Fund is only the name of the scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
5. The sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.10,000/- made by them towards setting up the Fund.
6. **The present Scheme is not a guaranteed or assured return Scheme.**
7. Statements / Observations made in the Scheme Information Document are subject to the laws of the land as they exist at any relevant point of time.
8. Growth, appreciation, Income Distribution cum Capital Withdrawal (IDCW) and income, if any, referred to in this Scheme Information Document are subject to the tax laws and other fiscal enactments as they exist from time to time.
9. The NAVs of the Scheme may be affected by changes in the general markets conditions, factors and forces affecting capital market, in particular, level of interest rates, various markets related factors and trading volumes, settlement periods and transfer procedures.
10. The Scheme is not guaranteeing or assuring any IDCW. The Scheme is also not assuring that it will make periodical IDCWs, though it has every intention of doing so. All IDCWs are subject to the availability of distributable surplus of the Scheme.
11. **Securities Lending:** It is one of the means of earning additional income for the scheme with a lesser degree of risk. Securities lending is lending of Securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent Securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the Securities borrowed. As per SEBI Circular Annexure 2 on short selling and securities lending and borrowing dated Dec 20, 2007, “The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs).”

The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.
12. **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

Scheme Specific Risk Factors

13. Risk associated with investment in Equities and Equity related instruments

The Scheme’s investment in Equity and Equity related instruments are exposed to following risks:

- a) **Equity Price Risk:** Stock prices may rise or decline based on a number of factors. These could be a combination of company-specific and system-specific factors. Their impact on different types of stocks may vary. Prices change due to events that impact entire financial markets or industries (for example, changes in inflation, consumer demand, supply situation and GDP growth). Company specific factors may include the likes of success or failure of a new product, mergers, takeovers, earnings announcement and changes in

management, to name a few. Securities owned by the Scheme may offer opportunities for growth because of high potential earnings growth; they may also involve greater risks than securities that do not have the same potential.

- b) **Stock Market Volatility:** Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Different parts of the market can react differently to these developments. The stock-specific volatility may also change over a period of time as the characteristic of the stock undergoes a change in terms of market cap category.
- c) **Liquidity Risk:** Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the equity and equity related investments made by the Scheme which could cause the Scheme to miss certain investment opportunities. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities.
- d) The aggregate value of “illiquid securities” of scheme, which are defined by SEBI as non traded, thinly traded and unlisted equity shares, shall not exceed 15% of the total assets of the scheme and any illiquid securities held above 15% of the total assets shall be assigned zero value.
- e) In the event of receipt of inordinately large number of redemption requests or a restructuring of the Schemes’ portfolio, there may be delays in the redemption of units.
- f) Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they have the capacity to take the risk of losing their investment.
- g) **Dependency Risk:** The scheme may invest in stocks and mutual funds and exchange-traded funds linked to stocks. Equity confers a proportionate share of the ownership of a company. Its value will depend on the success of the company’s business, income paid to stockholders by way of IDCW, the value of the company’s assets, quality of its corporate governance practice, its attractiveness relative to peers and general market conditions. The scheme may also invest in convertible securities and warrants. Convertible securities generally are fixed income securities or preference shares that may be converted into common stock after a prescribed period.
- h) **Temporary Investment Risk:** If the fund manager is of the view that market or economic conditions may become unfavourable for investors in equities, he may invest a higher proportion of the fund’s assets in short-term and medium-term fixed income instruments as well as near cash equivalents. This may be a defensive and temporary strategy. The fund manager may also adopt such a strategy while zeroing in on appropriate investment opportunities or to maintain liquidity. At times, such investments may lead to lower returns. In these circumstances, the Scheme may be unable to achieve its investment goal.
- i) **Non - Diversification Risk:** The scheme may pursue only a limited degree of diversification. It may invest a greater proportion of assets in the securities of one issuer (within the limit permitted by regulation) as compared to a diversified fund. This could have implications for the performance of the scheme. The Scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the Scheme.
- j) **Asset - Class Risk:** Stocks have historically outpaced other asset classes such as gold, fixed deposits and bonds, to name a few, over the long term in India. Individual stocks prices may, however, tend to rise and decline in a dramatic manner. Such price movement may be due to company-specific aspects or factors such as inflation, interest rates and growth rates that affect the securities market in entirety. A slowdown in growth or a partial or full-blown recession may have a negative impact on prices of most stocks owned by the Scheme.
- k) **Investment in overseas markets:** The success of investment in overseas markets depends upon the ability of the fund manager to understand conditions of those markets and analyse the information which could be different from Indian markets. Operations in foreign markets would be subject to exchange rate fluctuation risk besides the market risks of those markets.

14. Risks Associated With Investments in Debt Securities and Money Market Instruments

The investment in debt securities and money market instruments are exposed to following risks :

- a) **Credit Risk:** Bonds/Debentures as well as other money market instruments issued by the corporate run the risk of down grading by the rating agencies and even default as the worst case. Securities issued by Central/State governments have lesser to zero probability of credit/default risk in view of the sovereign status of the issuer. For example: One notch downgrade of a AAA rated issuer to AA+ will have an adverse impact on the price of the security and vice-versa for an upgrade of a AA+ issuer.
- b) **Interest Rate Risk:** Bonds/ Central Government securities which are fixed income securities, run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The level of interest rates is determined by the rates at which government raises new money through RBI and the price levels at which the market is already dealing in existing securities, rate of inflation etc. The extent of fall or rise in the prices is a function of the prevailing coupon rate, number of days to maturity of a security and the increase or decrease in the level of interest rates.

The prices of Bonds/Central Government securities are also influenced by the liquidity in the financial system and/or the open market operations (OMO) by RBI.

Pressure on exchange rate of the Rupee may also affect security prices. Such rise and fall in price of bonds/central government securities in the portfolio of the schemes may influence the NAVs of the schemes as and when such changes occur. For a fixed term scheme, where the maturity of the debt securities in the portfolio are in line with the maturity period of the respective schemes, the interest rate risk may not be there, if the investment is held upto maturity.

- c) **Price Risk:** As long as the scheme will be invested, their Net Asset Value (NAV) is exposed to market fluctuations, and their value can go up as well as down. The portfolio of fixed-income securities that the Scheme invest in would be exposed to price changes on a day-to-day basis. These price changes may occur due to instrument-specific factors as well as general macroeconomic conditions. In general, price of fixed-income securities go up when interest rates fall, and vice versa.
- d) **Liquidity or Marketability Risk:** The Indian debt market is such that a large percentage of the total traded volumes on particular days might be concentrated in a few securities. Traded volumes for particular securities differ significantly on a daily basis. Consequently, the schemes might have to incur a significant “impact cost” while transacting large volumes in a particular security. A lower level of liquidity affecting an individual security (ies) or an entire market may have an adverse bearing on the value of the Scheme’s asset. This may more importantly affect its ability to sell particular securities with minimal impact cost as and when necessary to meet requirement of liquidity or to sell stocks in response to triggers such as a specific economic/corporate event. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few of the investments.
- e) **Risks related to duration:** Fixed Income securities of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. Thus any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security.
- f) **Non - diversification Risk:** The scheme may pursue a reasonable degree of diversification adhering to the SEBI guidelines on limits for investments in a single sector, limits on investments in securities issued by a single issuer etc. It may invest a greater proportion of assets in the securities of one issuer / single sector (within the limit permitted by regulation) as compared to a diversified fund. This could have implications for the performance of the Scheme. The Scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the Scheme.
- g) **Re-investment Risk:** The investments made by the Scheme is subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- h) **Risk from zero coupon securities:** The Scheme may invest in high yield Zero coupon securities for maximisation of returns. The risk of the Scheme portfolio may increase to the extent of the exposure in Zero coupon securities. As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher.
- i) **Money Market Securities** are subject to the risk of an issuer’s inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

15. Risk associated with Investments in Repo of Corporate Debt Securities

a) Illiquidity Risk

The repo market for corporate debt securities is over the counter (OTC) and illiquid. Hence, repo obligations cannot be easily sold to other parties.

Therefore, to mitigate such risks, it has been stipulated that gross exposure to Repo in corporate bonds would be limited to 10% of net assets of the concerned Scheme. Further, the tenor of repo would be taken based on nature and unit holders’ pattern of the Scheme.

b) Counter-party risk

Credit risk would arise if the counter-party fails to repurchase the security as contracted or if counterparty fails to return the security or interest received on due date. To mitigate such risks, the Schemes shall carry out repo transactions with only those counterparties, which has a credit rating of ‘A1+’ or ‘AA- and above’. In case of lending of funds as a repo buyer, minimum haircuts on the value of the collateral security have been stipulated, and we would receive the collateral security in the Scheme’s account before the money is lent to the counter-party. Overall, we would have a limited number of counter-parties, primarily comprising of Mutual Funds, Scheduled Commercial banks, Financial Institutions and Primary dealers.

Similarly, in the event of the Scheme being unable to pay back the money to the counterparty as contracted, the counter-party may hurriedly dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the Scheme. Thus, the Scheme may suffer losses in such cases. Sufficient funds flow management systems are in place to mitigate such risks.

c) **Collateral Risk (as a repo buyer)**

Collateral risks arise due to fall in the value of the security (change in credit rating and/or interest rates) against which the money has been lent under the repo arrangement. To mitigate such risks, we have stipulated the minimum credit rating of the issuer of collateral security ('AA' for long-term instruments / A1+ for money market instruments), maximum duration of the collateral security (10 years) and minimum haircuts on the value of the security.

16. **Risk associated with Investments in Debt & Equity Derivatives**

- a) **Valuation Risk:** The risk in valuing the Debt & Equity derivative products due to inadequate trading data with good volumes. Derivatives with longer duration would have higher risk viz a viz the shorter duration derivatives.
- b) **Mark to Market Risk:** The day-to-day potential for an investor to experience losses from fluctuations in underlying stock prices and derivatives prices.
An example on Future Contract: Let us say a person goes long in a futures contract at Rs.100. This means that he has agreed to buy the underlying at Rs. 100 on expiry. Now, if on expiry, the price of the underlying is Rs. 150, then this person will buy at Rs. 100, as per the futures contract and will immediately be able to sell the underlying in the cash market at Rs.150, thereby making a profit of Rs. 50. Similarly, if the price of the underlying falls to Rs. 70 at expiry, he would have to buy at Rs. 100, as per the futures contract, and if sell the same in the cash market, he would receive only Rs. 70, translating into a loss of Rs. 30.
- c) **Systematic Risk:** The risk inherent in the capital market due to macro economic factors like Inflation, GDP, Global events.
- d) **Liquidity Risk:** The risk stemming from the lack of availability of derivatives products across different maturities and with different risk appetite.
- e) **Implied Volatility:** The estimated volatility of an underlying security's price and derivatives price.
- f) **Interest Rate Risk:** The risk stemming from the movement of Interest rates in adverse direction. As with all the debt securities, changes in the interest rates will affect the valuation of the portfolios.
- g) **Credit Risk:** The risk that the counterparty will default on its obligations in a derivative transaction is relatively low, as there is no exchange of principal amounts. This risk is substantially mitigated where derivative transactions happen through clearing corporation.
- h) **System Risk:** The risk arising due to failure of operational processes followed by the exchanges and OTC participants for the derivatives trading.

17. **Risk attached with the use of Derivatives**

- a) Interest Rate Swaps (IRSs) and Forward Rate Agreements (FRAs) do also have inherent credit and settlement risks. However, these risks are substantially less, as they are limited to the interest stream and not the notional principal amount.
- b) In an attempt to maximize returns and protect the value of portfolio and of the investors the Scheme may have an exposure into derivative products. As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- c) Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
- d) The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.
- e) **Risk associated with imperfect hedging:**
Basis risk is the risk associated with imperfect hedging. It arises because of the difference between the price of the asset to be hedged and the price of the asset serving as the hedge, or because of a mismatch between the expiration date of the hedge asset and the actual selling date of the asset (calendar basis risk).

Under these conditions, the spot price of the asset, and the futures price, do not converge on the expiration date of the future. The amount by which the two quantities differ measures the value of the basis risk. That is,

Basis = Futures price of contract – Spot price of hedged asset.

For example, in the attempt to hedge against a three-year bond with the purchase of Treasury bill_futures, there is a risk the Treasury bill and the bond will not fluctuate identically.

18. Risk Analysis on underlying asset classes in Securitisation

Securitisation – Features & Investment Strategy

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. A typical process of asset securitisation involves sale of specific Receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (e.g., promissory notes, pass through certificates or other debt instruments) to investors, such instruments evidencing the beneficial ownership of the investors in the Receivables. The financial instruments are rated by an independent credit rating agency. An Investor's Agent is normally appointed for providing trusteeship services for the transaction.

The Scheme shall predominantly invest only in those securitisation issuances, which have AAA rating indicating the highest level of safety from credit risk point of view at the time of making an investment.

Generally available Asset Classes for securitisation in India are:

- (i) Commercial Vehicles
- (ii) Auto and Two wheeler pools
- (iii) Mortgage pools (residential housing loans)
- (iv) Personal Loan, credit card and other retail loans
- (v) Corporate loans / receivables

The Scheme may invest in various type of securitisation issuances as given above, including but not limited to Asset Backed Securitisation, Mortgage Backed Securitisation, Personal Loan Backed Securitisation, Collateralized Loan Obligation/Collateralized Bond Obligation and so on.

19. Risk associated with investments in Securitised Papers

Types of Securitised Debt vary and carry different levels and types of risks. Credit Risk on Securitised Bonds depends upon the Originator and varies depending on whether they are issued with Recourse to Originator or otherwise. A structure with Recourse will have a lower Credit Risk than a structure without Recourse. Underlying assets in Securitised Debt may assume different forms and the general types of receivables include Auto Finance, Credit Cards, Home Loans or any such receipts, Credit risks relating to these types of receivables depend upon various factors including macro economic factors of these industries and economies. Specific factors like nature and adequacy of property mortgaged against these borrowings, nature of loan agreement / mortgage deed in case of Home Loan, adequacy of documentation in case of Auto Finance and Home Loans, capacity of borrower to meet its obligation on borrowings in case of Credit Cards and intentions of the borrower influence the risks relating to the asset borrowings underlying the securitised debt.

Holders of the securitised assets may have low credit risk with diversified retail base on underlying assets especially when securitised assets are created by high credit rated tranches, risk profiles of Planned Amortisation Class tranches (PAC), Principal Only Class Tranches (PO) and Interest Only class tranches (IO) will differ depending upon the interest rate movement and speed of prepayment. Various types of major risks pertaining to Securitised Paper are as below:

- a) **Liquidity & Price risk:** Presently, secondary market for securitised papers is not very liquid. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.
- b) **Delinquency and Credit Risk:** Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any Associate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of a Obligor to repay his obligation, the Servicer may repossess and sell the underlying Asset. However, many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

- c) **Prepayment Risk:** Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. Full prepayment of underlying loan contract may during the tenure of the paper. In the event of prepayments, investors may be exposed to changes in tenor and reinvestment risk.
- Subject to the Regulations, the investments may be in securities which are listed or unlisted, secured or unsecured, rated or unrated, and acquired through secondary market purchases, RBI auctions, open market sales conducted by RBI etc., Initial Public Offers (IPOs), other public offers, placements, rights, offers, negotiated deals, etc.
 - To avoid duplication of portfolios and to reduce expenses, the Scheme may invest in any other Schemes of the Fund to the extent permitted by the Regulations. In such an event, AMC will not charge management fees on the amounts of the Schemes so invested, unless permitted by the Regulations.
 - The NAV of the Scheme to the extent invested in Debt and Money market securities are likely to be affected by changes in the prevailing rates of interest and are likely to affect the value of the Scheme's holdings and thus the value of the Scheme's Units.
 - The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/ unrated securities offering higher yields. This may increase the risk of the portfolio.
 - While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
 - Investment decisions made by the AMC may not always be profitable, even though it is intended to generate capital appreciation and maximize the returns by actively investing in equity and equity related securities.

20. **Risk factors associated with Securities Lending**

As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

21. **Risk factors associated with processing of transaction through Stock Exchange Mechanism**

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both physical and demat form. The allotment and/or redemption of units through NSE and/or BSE or any other recognized stock exchange(s), on any business day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the fund has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

22. **Risks associated with Investment in ADR/GDR/ Foreign Securities:**

The investment in ADRs/GDRs/overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme invests in ADRs/GDRs/overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.

Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Scheme in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attributed to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such Scheme's investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Investors are requested to note that the costs associated with overseas investments like advisory fees (other than those expenses permissible under regulation 52 of SEBI Regulations) would not be borne by the scheme.

23. **Risk factors associated with investments in REITs and InvITs –**

VOLATILITY OF DISTRIBUTIONS

The REITs & InvITs distributions will be based on the Net Distributable Cash Flows available for distribution, and not on whether the REITs & InvITs makes an accounting profit or loss. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/InvIT receives as dividends or the interest and principal payments from portfolio assets. The cash flows generated by portfolio assets from operations may fluctuate based on, among other things.

- Economic cycles and risks inherent in the business which may negatively impact valuations, returns and profitability of portfolio assets
- Force majeure events related such as earthquakes, floods etc. rendering the portfolio assets inoperable
- Debt service requirements and other liabilities of the portfolio assets
- Fluctuations in the working capital needs of the portfolio assets
- Ability of portfolio assets to borrow funds and access capital markets
- Changes in applicable laws and regulations, which may restrict the payment of dividends by portfolio assets
- Amount and timing of capital expenditures on portfolio assets
- Insurance policies may not provide adequate protection against various risks associated with operations of the REIT/InvIT such as fire, natural disasters, accidents

OPERATIONAL AND RESIDUAL RISKS

- REIT & InvITs Assets are subject to various risks that we may not be insured against, adequately or at all, including:
 - (i) Changes in governmental and regulatory policies;
 - (ii) Shortages of, or adverse price movement for, materials, equipment and plants;
 - (iii) Design and engineering defects;
 - (iv) Breakdown, failure or substandard performance of the underlying assets and other equipments;
 - (v) Improper installation or operation of the underlying assets and other equipment;
 - (vi) Terrorism and acts of war;
 - (vii) Inclement weather and natural disasters;
 - (viii) Environmental hazards, including earthquakes, flooding, tsunamis and landslide
- Any additional debt financing or issuance of additional Units may have a material, adverse effect on the REITs & InvITs distributions.
- Any future issuance of Units by REITs & InvITs or sales of Units by the Sponsor or any of other significant Unitholders may materially and adversely affect the trading price of the Units.
- The Valuation Report, and any underlying reports, and the valuation contained therein may not be indicative of the true value of the Project SPVs' assets.
- Risk related to business or industry sector.
- There can be no assurance that REITs & InvITs will be able to successfully undertake future acquisitions.

Market Risk:

REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures.

Liquidity Risk:

As the liquidity of the investments made by the scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities for which a liquid market exists.

Reinvestment Risk:

Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.

Price-Risk or Interest-Rate Risk:

REITs & InvITs run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

Credit Risk:

In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. REITs & InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.

The above are some of the common risks associated with investments in REITs & InvITs.

RISK MITIGATION FACTORS:

The UTI AMC Ltd. (AMC) endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by AMC. The AMC also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the strength of management, predictability and certainty of cash flows, value of assets, capital structure, business prospects, policy environment, volatility of business conditions, etc.

The limits mentioned above shall not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REITs and InvITs.

24. Other Scheme Specific Risk factors & Risk Mitigation Measures

• **Scheme Specific Risk Factors:**

- The Scheme seeks to generate long term capital appreciation/ income by investing in equity & equity related instruments of up to 30 companies. This concentrated nature of the portfolio may result in higher levels of volatility vis-à-vis other diversified equity oriented schemes. Since the scheme will invest in not more than 30 stocks, it is also expected to have higher market liquidity risk compared to a regular diversified equity scheme.
- Although, the objective of the Fund is to generate optimal returns, the objective may or may not be achieved. The investors may note that if the AMC/Investment Manager is not able to make right decision regarding the timing of increasing exposure in debt securities in times of falling equity market, it may result in negative returns. Given the nature of Scheme, the portfolio turnover ratio may be on the higher side commensurate with the investment decisions and Asset Allocation of the Scheme. At times, such churning of portfolio may lead to losses due to subsequent negative or unfavorable market movements.
- The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risk associated with trading volumes, liquidity and settlement systems in equity and debt markets.
- Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, even though it is intended to generate capital appreciation and maximize the returns by actively investing in equity/ equity related securities.
- The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or policies of any appropriate authority and other political and economic developments and closure of stock exchanges which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.
- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the equity and equity related investments made by the Scheme which could cause the scheme to miss certain investment opportunities. Different segments of the financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The inability of the Scheme to make intended securities purchases due to settlement problems could also cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in a Scheme's portfolio due to the absence of a well-developed and liquid secondary market for debt securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in a Scheme's portfolio.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the regulatory limits, the AMC may have chosen to invest in unlisted securities as permitted for investment by the scheme. Listed securities which may become unlisted in future may increase the risk in the portfolio.

- The schemes intend to deploy funds in money market instruments to maintain liquidity. To the extent that some assets/funds are deployed in money market instruments, the schemes will be subject to credit risk as well as settlement risk, which might affect the liquidity of the schemes.

Risk Mitigation Measures:

Interest Rate Risk / Reinvestment Risk: The Scheme would manage the interest rate risk & reinvestment risk by adequately matching the duration of assets in line with the duration of the Scheme.

Credit Risk: Scheme would predominantly invest in highly rated securities where there is an internal credit comfort which would reduce the probability of credit risk.

Portfolio Quality Risk: A pre approved universe of stocks / issuers based on fundamental research is maintained to which helps to mitigate the risk of a poor portfolio quality.

Concentration Risk: The Scheme would have modest presence of issuers with reasonable limits to diversify the portfolio which would mitigate the credit concentration risk as well as sector /stock specific concentration risk.

Liquidity Risk: Periodical review of the liquidity position of each scrip (Market capitalization, average volume in the market vis. a vis. Portfolio Holding) to minimize liquidity risk.

Portfolio Risk: By monitoring the return deviation and adequately managing all the above risks namely interest rate risk, reinvestment risk & credit cum concentration risk the Scheme would mitigate the overall portfolio risk. Diversification of portfolio will also help to minimize interest rate risk, liquidity risk, portfolio quality risk and overall risks associated with the portfolio.

Investments in Equity and equity related instruments, carry various risks such as inability to sell securities, trading volumes and settlement periods, market risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification and investing in well researched stocks/equity instruments. In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market. The diversification of the portfolio into instruments which are well researched by a robust research team under a strong internal process would be instrumental in mitigating the risks associated.

Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Internal limits are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. There is a Board level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigates.

25. Risk factors associated with investment in Tri-Party Repo on Government Securities or treasury bill

The mutual fund is a member of securities segment and Triparty Repo on Government Securities or treasury bill, trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL).

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo on Government Securities or treasury bill trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

26. Risk factors associated with Creation of Segregated Portfolio –

- a) Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- b) Security comprises of segregated portfolio may not realise any value.
- c) Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the scheme. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2) (c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions shall also be complied within each calendar quarter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

UTI Focused Equity Fund is an open ended equity scheme investing in maximum 30 stocks across market caps.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The investment objective of the scheme is to generate long term capital appreciation by investing in equity & equity related instruments of maximum 30 stocks across market caps.

However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

1. Asset Allocation:

The Funds collected under the Scheme shall generally be invested consistent with the objective of the Scheme in the following manner:

Instruments	Indicative Allocation (% of total assets)		Risk Profile
	Minimum	Maximum	
Equity and equity related instruments (Maximum 30 stocks)	65%	100%	High
Debt and Money Market instruments including securitized debt*	0%	25%	Low to Medium
Units issued by REITs & InvITs	0%	10%	Medium to High

*Debt instruments shall be deemed to include securitised debts (excluding foreign securitised debt) and investment in securitised debts may be up to 50% of Debt and Money Market instruments.

The investment of mutual fund schemes in structured obligations and credit enhancements shall not exceed 10% of the debt portfolio of the schemes and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes.

The Scheme may invest in Repo in corporate debt. Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset scheme or such other limits as may be permitted by SEBI from time to time.

The Scheme can take exposure up to 20% of its net assets in securities lending.

The Scheme will not engage in Short selling and Credit default Swap.

Investment in equities would be through primary as well as secondary market.

The scheme does not intend to invest in Additional Tier I bonds and Tier 2 bonds issued under Basel III framework having special features as mentioned in SEBI/ circular HO/IMD/DF4/CIR/P/2021/032 dated March 10, 2021.

The Fund may use derivative instruments like Stock/Index Futures, Interest Rate Swaps, Interest Rate futures and Forward Rate Agreements or such other derivative instruments as may be introduced from time to time for the purpose of hedging and portfolio balancing, or to undertake any other strategy within a limit of 50% of the Net Assets of the scheme. The cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), repo transactions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs) , such other securities/assets as may be permitted by the SEBI from time to time should not exceed 100% of the net assets of the scheme in accordance with SEBI Cir. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021.

The Scheme may seek investment opportunity in the ADR/GDR/Foreign Securities, in accordance with guidelines stipulated in this regard by SEBI and RBI from time to time. Under normal circumstances, the scheme shall not have an exposure of more than 10% of its net assets in ADR/GDR/foreign securities subject to regulatory limits.

Investment in Foreign Securities shall be in compliance with requirement of SEBI circular dated September 26, 2007, SEBI Circular No. SEBI/HO/IMD/DF3/CIR/P/2020/225 dated November 05, 2020, SEBI/HO/IMD/IMD-II/DOF3/P/CIR/2021/571 dated June 03, 2021 and other applicable regulatory guidelines. The Scheme may invest in derivatives to engage in permitted currency hedging transactions with an intention to reduce exchange rate fluctuations between the currency of the Scheme (INR) and the foreign currency exposure.

In accordance with SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021, the above investment pattern is only indicative and may be changed by the Fund Manager for a short term period on defensive considerations, keeping in view the market conditions, market opportunities, applicable SEBI (MF) Regulations 1996, legislative amendments and other political and economic factors, the intention being at all times to seek to protect the interests of the Unit Holders upto 30 calendar days. Rebalancing of the portfolio will be done when the asset allocation falls outside the range given above. If the exposure falls outside the above mentioned asset allocation pattern, it will be restored within 30 days. If owing to adverse market conditions or with the view to protect the interest of the investors, the fund manager is not able to rebalance the asset allocation within the above mentioned period of 30 days, the same shall be reported to the Internal Investment Committee. The Internal Investment Committee shall then decide the further course of action.

The SEBI circular SEBI/HO/IMD/IMD-II DOF3/P/CIR/2022/39 dated March 30, 2022, states that in the event of deviation from mandated asset allocation mentioned in the Scheme Information Document (SID) due to passive breaches (occurrence of instances not arising out of omission and commission of AMC's) rebalancing period is 30 business days for the scheme. In case the portfolio of the scheme is not rebalanced within 30 business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC's shall i. not launch any new scheme till the time the portfolio is rebalanced ii. Not to levy exit load, if any, on the investors exiting such scheme.

Reporting and Disclosure Requirements: i. AMC's to report the deviation to Trustees at each stage. ii. In case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme: 1. AMC's have to immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced. 2. AMC's shall also have to immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced. 3. Subject line of the aforementioned emails / letters would clearly indicate "breach of" / "deviation" from mandated asset allocation. iii. AMC's have to disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines. The above mentioned norms shall be applicable to main portfolio only and not to segregated portfolio(s).

The reporting to Trustee shall be initiated immediately after the expiry of the mandated rebalancing period (i.e. 30 business day). The scheme wise deviation of the portfolio (beyond the limit specified) from the mandated asset allocation beyond 30 business days shall also be disclosed on the website of UTI AMC.

Investment in Money Market Instruments:

Investment in money market instruments including Triparty Repo on Government Securities or treasury bill, Commercial Papers, Certificate of Deposits, BRDS, Treasury Bills, Repo etc. will be made to meet the liquidity needs of the scheme manage desired duration.

The AMC, may create segregated portfolio in case of a credit event in respect of debt and money market instruments at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA). (subject to guideline specified by SEBI which may change from time to time).

The creation of segregated portfolio shall be optional and at the discretion of UTI AMC.

2. Debt market in India

(i) Debt Instrument Characteristics:

A Debt Instrument is basically an obligation which the borrower has to service periodically and generally has the following features:

- Face Value : Stated value of the paper / Principal Amount
- Coupon : Zero, fixed or floating
- Frequency : Semi-annual, annual, sometimes quarterly
- Maturity : Bullet, staggered
- Redemption : FV, premium or discount

Options : Call/Put
 Issue Price : Par (FV) or premium or discount

A debt instrument comprises of a unique series of cash flows for each paper, terms of which are decided at the time of issue. Discounting these cash flows to the present value at various applicable discount rates (market rates) provides the market price.

(ii) Debt Market Structure:

The Indian Debt market comprises of the Money Market and the Long Term Debt Market.

Money market instruments are Commercial Papers (CPs), Certificates of Deposit (CDs), Treasury bills (T-bills), Repos, Inter-bank Call money deposit, Triparty Repos on Government Securities or treasury bill etc. They are mostly discounted instruments that are issued at a discount to face value.

Money market instruments have a tenor of less than one year while debt market instruments typically have a tenor of more than one year.

Long Term Debt market in India comprises mainly of two segments viz., the Government securities market and the corporate securities market.

Government securities includes central, state and local issues. The main instruments in this market are Dated securities (Fixed or Floating) and Treasury bills (Discounted Papers). The Central Government securities are generally issued through auctions on the basis of ‘Uniform price’ method or ‘Multiple price’ method while State Govt. are through on-tap sales.

Corporate debt segment on the other hand includes bonds/debentures issued by private corporates, public sector units (PSUs) and development financial institutions (DFIs). The debentures are rated by a rating agency and based on the feedback from the market, the issue is priced accordingly. The bonds issued may be fixed or floating. The floating rate debt market has emerged as an active market in the rising interest rate scenario. Benchmarks range from Overnight rates or Treasury benchmarks.

Debt derivatives market comprises mainly of Interest Rate Swaps linked to Overnight benchmarks called MIBOR (Mumbai Inter Bank Offered Rate) and is an active market. Banks and corporate are major players here and Mutual Funds have also started hedging their exposures through these products.

Securitized Debt Instruments – Asset securitization is a process of transfer of risk whereby commercial or consumer receivables are pooled packaged and sold in the form of financial instruments. A typical process of asset securitisation involves sale of specific Receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments to investors, which are rated by an independent credit rating agency. Bank, Corporates, Housing and Finance companies generally issue securitized instruments. The underlying receivables generally comprise of loans of Commercial Vehicles, Auto and Two wheeler pools, Mortgage pools (residential housing loans), Personal Loan, credit card and corporate receivables.

The instrument, which is issued, includes loans or receivables maturing only after all receivables are realized. However, depending on timing of underlying receivables, the average tenure of the securitized paper gives a better indication of the maturity of the instrument.

(iii) Regulators:

The RBI operates both as the monetary authority and the debt manager to the government. In its role as a monetary authority, the RBI participates in the market through open-market operations as well as through Liquidity Adjustment facility (LAF) to regulate the money supply. It also regulates the bank rate and repo rate, and uses these rates as indirect tools for its monetary policy. The RBI as the debt manager issues the securities at the cheapest possible rate. The SEBI regulates the debt instruments listed on the stock exchanges.

(iv) Market Participants:

Given the large size of the trades, the debt market has remained predominantly a wholesale market.

Primary Dealers

Primary dealers (PDs) act as underwriters in the primary market, and as market makers in the secondary market.

Brokers

Brokers bring together counterparties and negotiate terms of the trade.

Investors

Banks, Insurance Companies, Mutual Funds are important players in the debt market. Other players are Trusts, Provident and pension funds.

(v) Types of security issuance and eligible investors:

Issuer	Instruments	Yields % (as on 07.10.2022)	Maturity	Investors
Central Government	Dated Securities	6.78-7.59 (Semi)	1-30 years	Banks, Insurance Co, PFs, MFs, PDs, Individuals, FPI
Central Government	T-Bills	6.78-6.10	364/91 days	Banks, Insurance Co, PFs, MFs, PDs, Individuals, FPI
State Government	Dated Securities	7.75-7.81 (Semi)	10 years	Banks, Insurance Co, PFs, MFs, PDs, Individuals
PSUs Corporates	Bonds	7.60-7.75	5-10 years	Banks, Insurance Co, PFs, MFs, PDs, Individuals, FPI
Corporates (AAA Rated)	Bonds	7.40-8.00	1-10 years	Banks, MFs, Corporates, Individuals, FPI
Corporates	Commercial Papers	6.20-7.40	15 days to 1 year	Banks, MFs, Fin Inst, Corporates, Individuals, FPIs
Banks	Certificates of Deposit	6.12-7.30	15 days to 1 year	Banks, Insurance Co, PFs, MFs, PDs, Individuals
Banks	Infra Bonds	7.65-7.75	6-7 years	Banks, Companies, MFs, PDs, Individuals

(vi) Trading Mechanism:

Government Securities and Money Market Instruments

Currently, Government Securities (G-Sec) trades are predominantly routed through NDS-OM which is a screen based anonymous order matching systems for secondary market trading in G Sec owned by RBI. Corporate Debt is basically a phone driven market where deals are concluded verbally over recorded lines. The reporting of trade is done on the NSE Wholesale Debt Market segment.

D. WHERE WILL THE SCHEME INVEST?

1. The corpus of the Scheme can be invested in any (but not exclusively) of the following instruments.

The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals etc.

2. Participation in Repo in Corporate Debt Securities

The Scheme shall participate in repo transactions in Corporate Debt Securities within the following overall framework, as per the guidelines of Securities and Exchange Board of India and Boards of UTI Trustee Co Pvt. Ltd & UTI AMC Ltd.

(A) Gross Exposure Norms

- (i) The gross exposure of any Scheme to 'corporate bonds repo transactions' shall not be more than 10% of the net assets of the concerned Scheme.

- (ii) The cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), repo transactions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), such other securities/assets as may be permitted by the SEBI from time to time should not exceed 100% of the net assets of the scheme.

(B) Category of the counter-party to be considered for making investment

All entities eligible for transaction in corporate debt repos, as defined by Reserve Bank of India (RBI) and SEBI, shall be considered for repo transactions.

(C) Credit Rating of Counterparty to be considered for making investment

The Scheme/s shall carry out repo transactions with only those counterparties, who have a credit rating of ‘AA- and above’ (Long term rating) or ‘A1+’ (Short term rating).

(D) Tenor of Repo

As a repo seller, the Scheme/s can borrow for a period not more than six months as per the existing Regulation 44(2) of the SEBI (Mutual Funds) Regulations, 1996.

As a repo buyer, the Scheme/s can lend for a maximum period of one year, subject to provision/s of the Scheme Information Document (SID).

(E) Tenor and Credit Rating of the Collateral

The Scheme/s shall participate in repo transactions in Corporate Bonds rated ‘AA’ and above ‘A1+’ in respect of money market instruments).

The tenor of the collateral shall not be more than 10 years.

(F) Minimum Haircut

In terms of RBI guidelines, repo transactions shall be subject to the following minimum haircuts:-

Rating of the Security	AAA	AA+	AA
Minimum Haircut	7.50%	8.50%	10%

The above are minimum stipulated haircuts where the repo period is overnight or where the re-margining frequency (in case of longer tenor repos) is daily. In all other cases, Fund Manager may adopt appropriate higher haircuts.

Depending on the market conditions and risk perceptions, the Fund Manager may seek higher haircut (while lending) or give a higher haircut (while borrowing).

(G) Risk factors and mitigation measures

i) Illiquidity Risk

The repo market for corporate debt securities is over the counter (OTC) and illiquid. Hence, repo obligations cannot be easily sold to other parties.

Therefore, to mitigate such risks, it has been stipulated that gross exposure to Repo in corporate bonds would be limited to 10% of net assets of the concerned Scheme. Further, the tenor of repo would be taken based on nature and unit holders’ pattern of the Scheme.

ii) Counter-party risk

Credit risk would arise if the counter-party fails to repurchase the security as contracted or if counterparty fails to return the security or interest received on due date. To mitigate such risks, the Schemes shall carry out repo transactions with only those counterparties, which has a credit rating of ‘A1+’ or ‘AA- and above’. In case of lending of funds as a repo buyer, minimum haircuts on the value of the collateral security have been stipulated, and we would receive the collateral security in the Scheme’s account before the money is lent to the counter-party. Overall, we would have a limited number of counter-parties, primarily comprising of Mutual Funds, Scheduled Commercial banks, Financial Institutions and Primary dealers.

Similarly, in the event of the Scheme being unable to pay back the money to the counterparty as contracted, the counter-party may hurriedly dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the Scheme. Thus, the Scheme may suffer losses in such cases. Sufficient funds flow management systems are in place to mitigate such risks.

iii) Collateral Risk (as a repo buyer)

Collateral risks arise due to fall in the value of the security (change in credit rating and/or interest rates) against which the money has been lent under the repo arrangement. To mitigate such risks, we have stipulated the minimum credit rating of the issuer of collateral security (‘AA’ for long-term instruments / A1+ for money market instruments), maximum duration of the collateral security (10 years) and minimum haircuts on the value of the security.

3. Participation in Derivative Products

The Scheme may take derivatives position based on the opportunities available subject to the guidelines provided by SEBI from time to time and in line with the overall investment objective of the Scheme. The Scheme will comply with the prescribed disclosure requirements. Derivative Positions may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under SEBI (MF) Regulations from time to

time. Hedging does not mean maximisation of returns but only reduction of systematic or market risk inherent in the investment.

Derivatives:

A derivative instrument, broadly, is a financial contract whose payoff structure is determined by the value of an underlying security, index, interest rate etc. Thus a derivative instrument derives its value from some underlying variable.

Derivatives are further classified into

- Futures
- Options
- Interest Rate Swaps
- Forward Rate Agreements

Futures:

A futures contract is a standardized contract between two parties where one of the parties commits to sell, and the other to buy, a stipulated quantity of a security at an agreed price on or before a given date in future.

Options:

An option is a derivative instrument which gives its holder (buyer) the right but not the obligation to buy or sell the underlying security at the contracted price on or before the specified date. The purchase of an option requires an up-front payment (premium) to the seller of the option.

There are two basic types of options, call option and put option.

(a) Call option:

A call option gives the buyer of the option the right but not the obligation to buy a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.

(b) Put option:

A put option gives the buyer of the option the right but not the obligation to sell a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.

On expiry of a call option, if the market price of the underlying asset is lower than the strike price the call would expire unexercised. Likewise, if, on the expiry of a put option, the market price of the underlying asset is higher than that of the strike price the put option will expire unexercised.

The buyer/holder of an option can make loss of not more than the option premium paid to the seller/writer but the possible gain is unlimited. On the other hand, the option seller/writer's maximum gain is limited to the option premium charged by him from the buyer/ holder but can make unlimited loss.

Interest Rate Swaps:

All swaps are financial contracts, which involve exchange (swap) of a set of payments owned by one party for another set of payments owned by another party, usually through an intermediary (market maker). An IRS can be defined as a contract between two parties (Counter Parties) to exchange, on particular dates in the future, one series of cash flows, (fixed interest) for another series of cashflows (variable or floating interest) in the same currency and on the same principal for an agreed period of time. The exchange of cashflows need not occur on the same date. It may be noted that in such hedged positions (fixed v/s floating or vice versa), both legs of the transactions have interest rate volatility as underlying. Debt derivatives are as of now customised over the counter products and there is no guarantee that these products will be available on tap. The provision for trading in derivatives is an enabling provision and it is not binding on the Scheme's to undertake trading on a day to day basis.

Forward Rate Agreement (FRA):

A FRA is an agreement between two counter parties to pay or to receive the difference between an agreed fixed rate (the FRA rate) and the interest rate prevailing on a stipulated future date, based on a notional amount, for an agreed period. In short, in a FRA, interest rate is fixed now for a future period. The special feature of FRAs is that the only payment is the difference between the FRA rate and the Reference rate and hence are single settlement contracts. As in the case of IRS, notional amounts are not exchanged.

Illustration: Interest Rate Swap (IRS)

Assume that a Mutual Fund has INR 10 crore, which is to be deployed in overnight products for 7 days. This money will be exposed to interest rate risk on daily basis. The fund can buy an Interest Rate Swap receiving fixed interest rate and paying NSE MIBOR.

The deal will be as under:

Counterparty Bank

Mutual Fund

Receives

Pays

Floating rate (NSE MIBOR)

Fixed rate (8.75%)

Pays

Receives

The cash flows on a notional principal amount of Rs. 10 crores would be-

(Rs. in crore)

	Principal	NSE MIBOR	Interest	Amount	
Day 1		10.0000	8.10%	.0022192	10.00221918
Day 2		10.00222	8.20%	.0022466	10.00446575
Day 3		10.00447	8.30%	.002274	10.00673973
Day 4 (for 2 days)	Saturday	10.00674	8.15%	.0044658	10.01120548
Day 5	Sunday		Holiday		
Day 6		10.01121	8.40%	.0023014	10.01350685
Day 7		10.01351	8.50%	.00232288	10.01583562
Floating interest payable					.0158356164
Fixed interest receivable					.0167808219
Net receivable for Mutual fund receiving fixed					.0009452055

In this example Mutual Fund stands to gain by receiving fixed rates. As the NSE MIBOR floating rate is decided daily in adverse scenario, the Mutual Fund may have to pay the difference.

The counter-party providing Swap, Options, Forward Rate Agreements (FRAs) will do the same at a cost.

Risk factors Interest rate swaps strategy:

Risk Factor: The risk arising out of uses of the above derivative strategy as under:

- Lack of opportunities available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Interest rate swaps require the maintenance of adequate controls to monitor the transactions entered into, the ability to forecast failure of another party (usually referred to as the ‘counter party’) to comply with the terms of the derivatives contract.

Derivatives can be traded over the exchange or can be structured between two counter-parties. Those transacted over the exchange are called Exchange Traded derivatives whereas the other category is referred to as OTC (Over the Counter) derivatives.

Some of the differences of these two derivative categories are as under :

Exchange traded derivatives: These are quoted on the exchanges like any other traded asset class. The most common amongst these are the Index Futures, Index Options, Stock Futures and Options on individual equities / securities. The basic form of the futures contract is similar to that of the forward contract, a futures contract obligates its owner to purchase a specified asset at a specified exercise price on the contract maturity date. Futures are cash-settled and are traded only in organised exchanges. Exchange traded derivatives are standardised in terms of amount and delivery date. Standardisation and transparency generally ensures a liquid market together with narrower spreads. On the other hand, for delivery dates far in the future, there may be insufficient liquidity in the futures market whereas an OTC price may be available.

OTC derivatives: OTC derivatives require the two parties engaging in a derivatives transaction to come together through a process of negotiation. It is a derivative that is customised in terms of structure, amount, tenor, underlying assets, collateral etc. Some of the common examples are interest rate and currency swaps, Forward Rate Agreements (FRAs) etc.

Position Limit in Derivatives

The position limits for trading in derivatives by Mutual Funds specified by SEBI vide SEBI Circular No. DNP/Cir-29/2005 dated September 14, 2005, SEBI Circular No. DNP/Cir -30/2006 dated January 20, 2006 and SEBI Circular No. SEBI/DNP/Cir-31/2006 dated September 22, 2006, SEBI/HO/IMD/DF2 /CIR/P/2017/109 dated September 27, 2017 are as follows:

i) Position limit for Mutual Funds in index options contracts

- a. The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crores or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all options contracts on a particular underlying index.
- ii) **Position limit for Mutual Funds in index futures contracts**
 - a. The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
 - b. This limit would be applicable on open positions in all futures contracts on a particular underlying.
- iii) **Additional position limit for hedging for the Mutual Fund**
 In addition to the position limits at point (i) and (ii) above, Mutual Funds may take exposure in equity index derivatives subject to the following limits :
 - a. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
 - b. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.
- iv) **Position limit for Mutual Funds for stock based derivative contracts**
 The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts will be as follows :-
 - a. For stocks having applicable market-wide position limit (MWPL) of Rs. 500 crores or more, the combined futures and options position limit shall be 20% of applicable MWPL or Rs. 300 crores, whichever is lower and within which stock futures position cannot exceed 10% of applicable MWPL or Rs. 150 crores, whichever is lower.
 - b. For stocks having applicable market-wide position limit (MWPL) less than Rs. 500 crores, the combined futures and options position limit would be 20% of applicable MWPL and futures position cannot exceed 20% of applicable MWPL or Rs. 50 crore whichever is lower.
- v) **Position limit for each scheme of a Mutual Fund**
 The scheme-wise position limit requirements shall be:
 - a. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:
 - 1% of the free float market capitalization (in terms of number of shares). Or
 - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
 - b. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.

Illustrations

i. Arbitrage:

Buy 100 stocks of Company ABC Ltd. at Rs 10 and sell the equivalent of stocks future of the Company ABC Ltd. at Rs 11.

1. Market goes up and the stock end at Rs 15.
 At the end of the month the future expires automatically:
 At the settlement date we assume that future price = closing spot price = Rs 15
 - a. Gain on stock is $100 \times (15 - 10) = \text{Rs } 500$
 - b. Loss on future is $100 \times (11 - 15) = \text{Rs } -400$
 - c. Then gain realized is $500 - 400 = \text{Rs } 100$
2. Market goes down and the stock end at Rs 5
 At the end of the month the future expires automatically:
 At the settlement date we assume that future price = closing spot price = Rs 5
 - a. Loss on stock is $100 \times (5 - 10) = \text{Rs } -500$
 - b. Gain on future is $100 \times (11 - 5) = \text{Rs } 600$
 - c. Then gain realized is $600 - 500 = \text{Rs } 100$

ii. Unwinding an arbitrage position:

Buy 100 stocks of Company ABC Ltd at Rs 10 and sell the equivalent of stocks future of the Company ABC Ltd. at Rs 11.

The market goes up and at some point of time during the month the stock trades at Rs 15 and the future trades at Rs 14 then we unwind the position:

1. Buy back the future at Rs 14 : loss incurred is $(11 - 14) \times 100 = \text{Rs } -300$
2. Sell the stock at Rs 15 : gain realized : $(15 - 10) \times 100 = \text{Rs } 500$
3. Net gain is $500 - 300 = \text{Rs } 200$

iii. Roll over the futures:

In this case we keep the underlying stock position intact and roll over the futures position into next month. For example, if the underlying stock is trading around Rs 15 on or closer to the expiry date, the stock future is also generally likely to trade closer to similar levels. In such a case, if the next month futures are trading at levels higher than the current month futures, we roll over the future position to the next month (i.e. instead of letting the current month future expire (on expiry day), we buyback the current month future and sell the next month future in its place, keeping the underlying stock position unchanged):

- a. Stock future next month is at Rs 16
- b. Stock future actual month is at Rs 15
- c. Then sell future next month at Rs 16 and buy back actual future at Rs 15 => gain of $100 \times (16 - 15) = \text{Rs. } 100$ and the arbitrage is continuing.
In case, the future price trades at discount to spot price (any time during the period till the expiry date) then the original position will be squared by buying the future and selling the spot market position.
- d. For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Some of the derivative techniques/ strategies that may be used are:-

- (i) The Scheme will use hedging techniques including dealing in derivative products - like futures and options, warrants, interest rate swaps (IRS), forward rate agreement (FRA) as may be permissible under SEBI (MF) Regulations.
- (ii) The Scheme intends to use derivatives only for the purpose of hedging and/or re-balancing of the portfolio against any anticipated move in the equity and debt markets. A hedge is primarily designed to offset a loss on a portfolio with a gain in the hedge position.
- (iii) The Fund manager may use various strategies for trading in derivatives with a view to enhancing returns and taking cover against possible fluctuations in the market. One of the strategies could be to use index futures with a view to increasing/ decreasing the overall level of investment in equities.
- (iv) The Fund Manager may sell the index forward by taking a short position in index futures to save on the cost of outflow of funds or in the event of negative view on the market.
- (v) The Schemes/Plans shall have a maximum derivatives net position of 25% of the portfolio, i.e. net assets, including cash. Within this, the restriction on asset allocation would apply to derivatives position as well. This means that the maximum permissible derivatives position would be split in the same ratio as the asset allocation specified in the Scheme Information Document.

UTI AMC may in future revise the limits within the SEBI (MF) Regulations in keeping with the investment objective of the Scheme. Such derivative position will comply with overall limits and norms of SEBI Circular No Cir / IMD / DF / 11 / 2010 dated August 18, 2010, DNP/DF-29/2005 dated September 14, 2005, SEBI/DNP/DF-31/2006 dated September 22, 2006 and DNP/DF-31/2006 dated January 20, 2006.

4. Exposure limits as per SEBI Circular No. Cir/IMD/DF/11/2010 dated 18th August 2010 & SEBI Circular No. Cir H.O./IMD/DF2/CIR/P/2017/109 dated 27th September 2017 and SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021:

- a. The cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), repo transactions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), such other securities/assets as may be permitted by the SEBI from time to time should not exceed 100% of the net assets of the scheme.
- b. Mutual Funds shall not write options or purchase instruments with embedded written options.
- c. The total exposure related to option premium paid must not exceed 20% of the net assets of the Scheme.
- d. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- e. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:-
 - (i) Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - (ii) Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point a.
 - (iii) Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - (iv) The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.

- f. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the Scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the Scheme.
- g. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point a.

h. Risk associated with imperfect hedging:

Basis risk is the risk associated with imperfect hedging. It arises because of the difference between the price of the asset to be hedged and the price of the asset serving as the hedge, or because of a mismatch between the expiration date of the hedge asset and the actual selling date of the asset (calendar basis risk).

Under these conditions, the spot price of the asset, and the futures price, do not converge on the expiration date of the future. The amount by which the two quantities differ measures the value of the basis risk. That is,

$$\text{Basis} = \text{Futures price of contract} - \text{Spot price of hedged asset.}$$

For example, in the attempt to hedge against a three-year bond with the purchase of Treasury bill futures, there is a risk the Treasury bill and the bond will not fluctuate identically.

Definition of Exposure in case of Derivative Positions

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts.

- (i) To reduce interest rate risk a scheme may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Futures Price} / \text{PAR})}$$

- (ii) In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.
- (iii) Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:
- Exposure to IRFs is created **only for hedging** the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.
 - Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (*excluding the hedged portions, if any*) and the IRF is atleast 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Para 3 of SEBI circular dated August 18, 2010. The correlation should be calculated for a period of last 90 days.

Explanation: *If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:*

- The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or*
 - The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.*
- i) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.
- j) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of Para 3 of SEBI circular dated August 18, 2010.
- (iv) The basic characteristics of the scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

(v) The interest rate hedging of the portfolio should be in the interest of the investors.

The AMC retains the right to enter into such derivative transactions as may be permitted by the Regulations from time to time. For risks associated with investments in derivatives investors are requested to refer to Risk Factors of this Scheme Information Document.

The risks involved in derivatives are:

1. The cost of hedge can be higher than adverse impact of market movements.
2. The derivatives will entail a counter-party risk to the extent of amount that can become due from the party.
3. An exposure to derivatives in excess of the hedging requirements can lead to losses.
4. An exposure to derivatives can also limit the profits from a genuine investment transaction.
5. Efficiency of a derivatives market depends on the development of a liquid and efficient market for underlying securities and also on the suitable and acceptable benchmarks.
6. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Methods to tackle the risks :

1. Hedging will not be done on a carpet basis but based on a view about interest rates, economy and expected adverse impact.
2. Limits of appropriate nature will be developed for counter parties.
3. Such an exposure will be backed by assets in the form of cash or securities adequate to meet cost of derivative trading and loss, if any, due to unfavorable movements in the market.

The losses that may be suffered by the investors as a consequence of such investments:

1. As the use of derivatives is based on the judgment of the Fund Manager, the view on market taken may prove wrong resulting in losses.
2. The upside potential of investments may be limited on account of hedging which may cause opportunity losses.

The use of derivatives for hedging will give benefit of:

1. Curtailing the losses due to adverse movement in interest rates
2. Securing upside gains at cost

VALUATION OF DERIVATIVES

1. The traded derivatives shall be valued at market price in conformity with the stipulations of sub clauses (i) to (v) of clause 1 of the Eighth Schedule to the SEBI Regulations.
2. The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the SEBI Regulations.

REPORTING OF DERIVATIVES

The AMC shall cover the following aspects in their reports to trustees periodically, as provided for in the Regulations:

1. Transactions in derivatives, both in volume and value terms.
2. Market value of cash or cash equivalents / securities held to cover the exposure.
3. Any breach of the exposure limit laid down in the scheme Information document.
4. Shortfall, if any, in the assets covering investment in derivative products and the manner of bridging it.
The Trustees shall offer their comments on the above aspects in the report filed with SEBI under sub regulation (23) (a) of regulation 18 of SEBI Regulations.

5. INVESTMENT IN UNITS OF REITs & INVITs

Investment limits applicable for investment in units of REIT and InvIT-

- (a) At Mutual fund level - All schemes of mutual fund shall not own more than 10% of units issued by a single issuer of REIT and InvIT; and
- (b) At individual scheme level - A mutual fund scheme shall not invest –
 - i. more than 10% of its NAV in the units of REIT and InvIT; and
 - ii. more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

The limits mentioned in sub-clauses (i) and (ii) above shall not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REIT and InvIT.

6. PARTICIPATION IN INTEREST RATE FUTURES (IRFs)

a) Investment Norms:

To reduce interest rate risk in a debt portfolio, the scheme may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\text{(Portfolio Modified Duration * Market Value of the Portfolio) / (Futures Modified Duration * Futures Price / PAR value)}$$

At no point of time, the net modified duration of part of the portfolio being hedged should be negative.

In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging. Imperfect hedging using IRFs will be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to certain conditions such as exposure to IRFs is created only for hedging the correlation between the portfolio and the IRF is atleast 0.9 etc. as prescribed in above mentioned SEBI circular.

b) Risks associated with imperfect hedging:

With imperfect hedging, there is a risk that offsetting investments in a hedging strategy will not experience price changes in entirely same direction from each other. This imperfect correlation between the two investments creates the potential for excess gains or losses in a hedging strategy, thus adding risk to the position.

For example, in the attempt to hedge interest rate risk of a scheme (diversified portfolio of various debt securities) with a modified duration of say 6 years, the fund manager takes a short position in 10 year IRF having a modified duration of 6 years. The risk is that price changes in IRF and the scheme portfolio may not move in the same direction or in the same proportion.

Numerical Example:

To understand risk associated with imperfect hedging let us look at the following illustration:

On Nov 1, 2021 the fund buys Rs. 100 Crores of 10 year Power Finance Co. (corporate bond) with a modified duration of 6 years from the spot market at a yield of 7.50% (Price: Rs. 100). Subsequently, it is anticipated that the interest rate will rise in the near future. Therefore, to hedge the exposure in underlying corporate bond, the fund sells Nov 2021, 10 year benchmark Interest Rate Futures at yield of 7.00% (Price: Rs. 98.50) having a modified duration of 6 years.

Let us assume the following two scenarios:

(i) Both the securities experience price changes in the same direction:

On Nov 15, 2021 the corporate bond and government bond yields move up by 10 basis points (0.10%) on back of deteriorating macro-economic factors.

Loss in Corporate Bond Holding = Portfolio Value * Change in Interest Rate * Modified Duration
 Loss in Corporate Bond Holding = Rs. 100 Crores * 0.10% * 6 = (Rs. 60 Lakhs)

Similarly, Profit on short selling of Interest Rate Futures = Rs. 100 Crores * 0.10% * 6 = Rs. 60 Lakhs

This allows the fund manager to hedge the portfolio against interest rate movement using Interest Rate Futures.

(ii) Securities experience price changes in the opposite direction:

On Nov 15, 2021 the corporate bond yield moves up by 10 basis points (0.10%) on back of higher supply of corporate bonds & the government bond yield fell by 5 bps due to improving macro-economic factors.

Loss in Corporate Bond Holding = Portfolio Value * Change in Interest rate * Modified Duration
 Loss in Corporate Bond Holding = Rs. 100 Crores * 0.10% * 6 = (Rs. 60 Lakhs)

Similarly, Loss on short selling of Interest Rate Futures = Rs. 100 Crores * 0.05% * 6 = (Rs. 30 Lakhs)

On certain instances like the one illustrated above, it is observed that the correlation between the corporate bonds and government securities may not be perfect over a short period of time leading to imperfect hedging which may result in higher loss/ gain from the strategy. The likelihood of such instances being prevalent on a sustainable basis is expected to be minimal due to strong correlation between government securities & bond markets over the medium to long term.

c) Risk mitigation factors:

The scheme may use various derivative products as permitted by the Regulations. Participating in derivatives is a highly specialized activity and entails greater than ordinary investment risks. Primarily, derivatives including Interest Rate Futures would be used for purpose of hedging and portfolio balancing.

The AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Risk indicators & internal limits are defined and judiciously monitored on a regular basis. There is a Board level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigation measures.

7. Investment in Securitised Debt

A securitisation transaction involves sale of receivables by the originator (a bank, non-banking finance company, housing finance company, or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass Through Certificates (PTCs), the proceeds of which are paid as consideration to the originator. In this manner, the originator, by selling his loan receivables to an SPV, receives consideration from investors much before the maturity of the underlying loans. Investors are paid from the collections of the underlying loans from borrowers. Typically, the transaction is provided with a limited amount of credit enhancement (as stipulated by the rating agency for a target rating), which provides protection to investors against defaults by the underlying borrowers. Generally available asset classes for securitisation in India are:

- Commercial vehicles
- Auto and two wheeler pools
- Mortgage pools (residential housing loans)
- Personal loan, credit card and other retail loans
- Corporate loans/receivables

8. Investment by these Schemes in any other Schemes of UTI AMC

Investment by the scheme in other Mutual Fund schemes will be in accordance with Regulation 44(1), Seventh Schedule of the SEBI (MF) Regulations as under: A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund. Such investment will be consistent with the investment objective of the schemes. No investment management fees will be charged by the AMC on such investment.

E. WHAT ARE THE INVESTMENT STRATEGIES?

1) Investment Strategy:

The scheme shall predominantly invest in equity and equity related securities (maximum of 30 stocks) across the market capitalization spectrum, considering the factors such as, but not limited to, business fundamentals, financial strength, sustainable cash flows, earnings growth potential, attractiveness of valuation, scalability of business, management quality etc. The fund primarily relies on bottom-up stock picking. However, would use the top-down approach from a risk management perspective.

2) Portfolio Turnover Policy

The Scheme is an open-ended Scheme. Hence, the fund managers have to execute transactions based on subscriptions and redemptions on a daily basis. Further, as an active fund the scheme will take advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets. Hence, it would be difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived there from.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18(15A) of the SEBI (MF) Regulations:

(i) Type of the Scheme

UTI Focused Equity Fund is an open-ended equity scheme investing in a maximum of 30 stocks across market caps.

(ii) Investment objective

Main Objective - as given in Clause II B.

Investment pattern - The tentative portfolio break-up of Equity, Debt, Money Market Instruments, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), and such other securities as may be permitted by the SEBI from time to time with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations - as given in Clause II C.

(iii) Terms of issue

Liquidity provision of redemption: Only provisions relating to redemption as given in the Scheme Information Document (SID).

Aggregate Expense and Fees [as given in clause IV (B) (1) to (2)] charged to the Scheme.

Any safety net of guarantee provided: UTI Focused Equity Fund is not a guaranteed or assured return scheme.

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

Subject to SEBI (MF) Regulations, guidelines on investment from time to time:

- (a) The scheme shall invest not more than 10% of its NAV in the equity shares or equity related instruments of any company.
- (b) All investments by a mutual fund scheme in equity shares and equity related instruments shall be made only in listed or to be listed securities.
- (c) The aggregate value of “illiquid securities” of the scheme, which are defined by SEBI as non traded, thinly traded and unlisted equity shares, shall not exceed 15% of the total assets of the scheme and any illiquid securities held above 15% of the total assets shall be assigned zero value.
- (d) The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of Directors of the Asset Management Company.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Triparty Repo on Government securities or treasury bills.

Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investments grade by a credit rating agency registered with the SEBI.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the SEBI from time to time.

- (e) Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments. It is further clarified that the investment limits as mentioned in (d) above are applicable to all debt securities, which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc. guaranteed by either state or central government. Government securities issued by central/state government or on its behalf by the RBI are exempt from the above investment limits.
- (f) As per SEBI Circular SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019, investments by Mutual Funds in partly paid debentures shall be made as per the guidelines issued by AMFI, in consultation with SEBI from time to time.
- (g) Save as otherwise expressly provided under the SEBI (Mutual Funds) regulations, the mutual fund shall not advance any loans for any purpose.

- (h) Pending deployment of funds of the Scheme in securities in terms of the investment objective of the scheme as stated above, the funds of the Scheme may be invested in short term deposits of scheduled commercial banks in accordance with SEBI Circular No. SEBI/IMD/CIR No. 1/ 91171 /07 dated April 16, 2007, and such deposits shall abide by the following guidelines:
- “Short Term” for parking of funds shall be treated as a period not exceeding 91 days.
 - Such short-term deposits shall be held in the name of the Scheme.
 - The scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
 - Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - The scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - Trustees/Asset Management Companies (AMCs) shall ensure that no funds of a scheme are parked in short term deposit (STD) of a bank which has invested in that scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD does not invest in the said scheme until the scheme has STD with such bank.
 - Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks (SEBI Circular SEBI/HO/IMD/DF2/CIR/P/2019/101 dated September 20,2019).
 - The AMC/Trustee may alter these above stated restrictions from time to time to the extent the SEBI Regulations change, so as to permit the Scheme to make their investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. All investments of the Scheme will be made in accordance with the SEBI Regulations and any other regulations that may be applicable from time to time.
 - The above shall not apply to Term Deposits placed as margins for trading in cash and derivatives market as per SEBI Circular SEBI/IMD/CIR No. 7 / 129592 dated June 23, 2008.

- (i) UTI Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and shall in no case put itself in a position whereby it has to make short sale or carry forward transaction unless allowed by SEBI. Provided that the scheme may enter into derivatives transactions for the purpose of hedging and re-balancing the portfolio as may be permissible under guidelines issued by SEBI.

- (j) The Mutual Fund under all its schemes taken together will not own more than 10% of any Company’s paid up capital carrying voting rights as per SEBI Regulations from time to time.

Provided that the Sponsor of the Fund, its associate or group company including the Asset Management Company of the Fund, through the Scheme(s) of the Fund or otherwise, individually or collectively, directly or indirectly, shall not have 10% or more of the share-holding or voting rights in the Asset Management Company or the trustee company of any other mutual fund.

Provided further that in the event of a merger, acquisition, scheme of arrangement or any other arrangement involving the sponsors of the mutual funds, shareholders of the Asset Management Companies or Trustee Companies, their associates or group companies which results in the incidental acquisition of shares, voting rights or representation on the board of the Asset Management Companies or Trustee Companies beyond the above specified limit, such exposure may be rebalanced within a period of one year of coming into force of such an arrangement.

- (k) Investments of the scheme are held in the name of the scheme. UTI MF shall, get the securities purchased by the scheme transferred in the name of the scheme, wherever investments are intended to be of long-term nature.

- (l) (i) The scheme may participate in the securities lending program, in accordance with the terms of securities lending scheme announced by SEBI. The activity shall be carried out through approved intermediaries.
- (ii) The maximum exposure of the scheme to a single approved intermediary in the securities lending programme at any point of time would be 10% of the market value of the security class of the scheme or such limit as may be specified by SEBI.
- (iii) The scheme, in appropriate circumstances, may borrow securities in accordance with SEBI guidelines as amended from time to time.

- (m) The scheme shall not make any investment in any unlisted security of an associate or Group Company of the sponsors; or any security issued by way of private placement by an associate or group company of the sponsors; or the listed securities of group companies of the sponsors which is in excess of 25% of the net assets.
- (n) Investment in non-publicly offered debt: Depending upon the available yields the scheme, which are permitted to invest in Debt instruments, may invest in non-publicly offered debt securities.
- (o) Based upon the liquidity needs, the scheme may invest in Government of India/State Government Securities to the extent to which such investment can be made by the scheme.
- (p) Investment by this Scheme in other Mutual Fund Schemes will be in accordance with Regulation 44(1), Seventh Schedule of the SEBI (MF) Regulations as under:

The scheme may invest in another Scheme under the same Asset Management Company or any other mutual fund without charging any fees, provided that aggregate inter Scheme investment made by all Schemes under the same management or in Schemes under the management of any other Asset Management Company shall not exceed 5% of the net asset value of the mutual fund.

Such investment will be consistent with the investment objective of the Scheme. No investment management fees will be charged by the AMC on such investments.

- (q) **IST (Inter Scheme Transfer)** - Transfer of investments from one Scheme to another Scheme in the same mutual fund, shall be allowed only if:-
 - (i) such transfers are made at the prevailing market price for quoted Securities on spot basis. Explanation: spot basis shall have the same meaning as specified by Stock Exchange for spot transactions. Provided that inter scheme transfer of money market or debt security (irrespective of maturity) shall take place based on prices made available by valuation agencies as prescribed by SEBI from time to time.
 - (ii) the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
 - (iii) ISTs shall take place in compliance with various conditions as specified by SEBI vide its circular SEBI/HO/ IMD/DF4/CIR/P /2020/202 dated October 08, 2020.

In case of Open Ended Schemes, ISTs may be allowed in the following scenarios:

For meeting liquidity requirement in a scheme in case of unanticipated redemption pressure:

AMCs shall have an appropriate Liquidity Risk Management (LRM) Model at scheme level, approved by trustees, to ensure that reasonable liquidity requirements are adequately provided for. Recourse to ISTs for managing liquidity will only be taken after the following avenues for raising liquidity have been attempted and exhausted:

- I. Use of scheme cash & cash equivalent
- II. Use of market borrowing
- III. Selling of scheme securities in the market
- IV. After attempting all the above, if there is still a scheme level liquidity deficit, then out of the remaining securities, outward ISTs of the optimal mix of low duration paper with highest quality shall be effected.

The use of market borrowing before ISTs will be optional and Fund Manager may at his discretion take decision on borrowing in the best interest of unitholders. The option of market borrowing or selling of security as mentioned at para .(q)II & (q)III above may be used in any combination and not necessarily in the above order. In case option of market borrowing and/or selling of security is not used, the reason for the same shall be recorded with evidence.

- (r) Valuation of money market and debt securities with respect to Inter-scheme transfer in accordance with SEBI Circular SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019 is as follows:
 - AMCs shall seek prices for IST of any money market or debt security (irrespective of maturity), from the valuation agencies.
 - AMFI, in consultation with valuation agencies shall decide a turn-around-time (TAT), within which IST prices shall be provided by the agencies.
 - If prices from the valuation agencies are received within the pre-agreed TAT, an average of the prices so received shall be used for IST pricing.
 - If price from only one valuation agency is received within the agreed TAT, that price may be used for IST pricing.

- If prices are not received from any of the valuation agencies within the agreed TAT, AMCs may determine the price for the IST, in accordance with Clause 3 (a) of Seventh Schedule of SEBI (Mutual Funds) Regulations, 1996.
- (s) The scheme shall not make any investment in any fund of fund scheme.
- (t) The Fund may use derivative instruments like Stock/Index Futures or such other derivative instruments as may be introduced from time to time for the purpose of hedging and portfolio balancing, or to undertake any other strategy within a limit of 50% of the Net Assets of the scheme.
- (u) The Scheme may seek investment opportunity in the ADR/GDR, Foreign Securities, in accordance with guidelines stipulated in this regard by SEBI and RBI from time to time. Under normal circumstances, the scheme shall not have an exposure of more than 10% of its net assets in foreign securities subject to regulatory limits.

Investment in Foreign Securities shall be in compliance with requirement of SEBI circular dated September 26, 2007, SEBI Circular No. SEBI/HO/IMD/DF3/CIR/P/2020/225 dated November 05, 2020, SEBI/HO/IMD/IMD-II/DOF3/P/CIR/2021/571 dated June 03, 2021 and other applicable regulatory guidelines.

The Scheme may invest in derivatives to engage in permitted currency hedging transactions with an intention to reduce exchange rate fluctuations between the currency of the Scheme (INR) and the foreign currency exposure

(v) **Investment in Listed and Unrated Debt instruments SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 01, 2019.**

1. Mutual fund scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

However, investments in such identified NCDs shall continue to be subject to compliance with investment due diligence and all other applicable investment restrictions.

2. For the purpose of the provisions of paragraph (v), listed debt instruments shall include listed and to be listed debt instruments.
3. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
4. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the following:
 - a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Funds) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments, shall not exceed 5% of the net assets of the schemes.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

(w) **Restrictions on Investment in debt instruments having Structured Obligations / Credit Enhancements: SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 01, 2019.**

1. The investment of mutual fund schemes in the following instruments shall not exceed 10% of the debt portfolio of the schemes and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes:
 - i. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.
 - ii. For the purpose of this provision, 'Group' shall have the same meaning as defined in paragraph B(3)(b) of SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/35 dated February 15, 2016.

2. Investment limits as mentioned in paragraph (w)(1) above shall not be applicable on investments in securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitized Debt Instruments) Regulations 2008.
3. Investment in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares.
AMCs may ensure that the investment in debt instruments having credit enhancements are sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, AMCs should initiate necessary steps to ensure protection of the interest of the investors.
4. Details of investments in debt instruments having structured obligations or credit enhancement features should be disclosed distinctively in the monthly portfolio statement of mutual fund schemes.

(x) **Investment in units of REIT and InvIT-**

- (i) At Mutual fund level - All schemes of mutual fund shall not own more than 10% of units issued by a single issuer of REIT and InvIT; and
- (ii) At individual scheme level - A mutual fund scheme shall not invest –
 - i. more than 10% of its NAV in the units of REIT and InvIT; and
 - ii. more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

The limits mentioned in sub-clauses (i) and (ii) above shall not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REIT and InvIT.”

- (y) The mutual fund shall not borrow except to meet temporary liquidity needs of the mutual fund for the purpose of repurchase, redemption of units or payment of interest or IDCW to the unitholders:

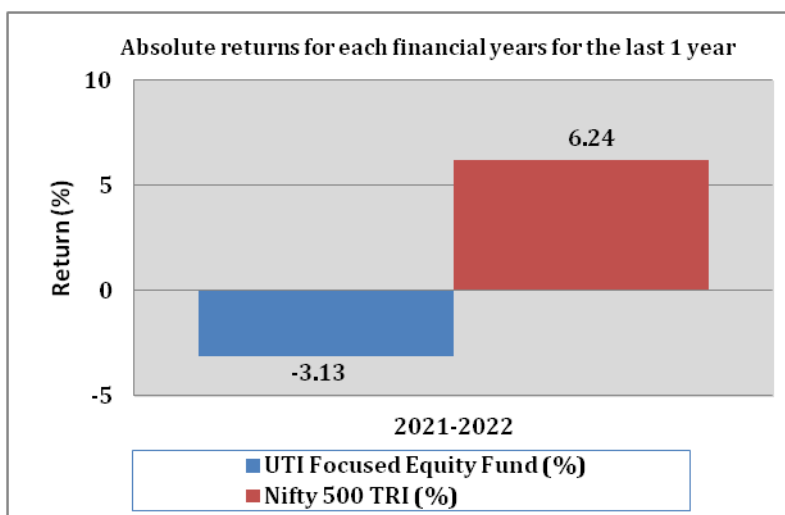

Provided that the mutual fund shall not borrow more than 20% of the net asset of the scheme and the duration of such a borrowing shall not exceed a period of six months.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investment in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The AMC/Trustee may from time to time alter these restrictions in conformity with the (MF) Regulations.

<p>Details under Foreign Account Tax Compliance provisions (commonly known as FATCA) / Foreign Tax Laws and Common Reporting Standard (CRS)</p>	<p>FATCA is United States (US) Federal Law, aimed at prevention of tax evasion by US citizens and residents (“US persons” as defined in the applicable extant laws of the United States of America) through use of offshore accounts. FATCA provisions are part of Hiring Incentives to Restore Employment (HIRE) Act, enacted by US Legislature. Under FATCA, withholding tax may be levied on certain US source income/receipt of the Schemes of the Mutual Fund, unless they are FATCA compliant.</p> <p>FATCA obligates foreign financial institutions (FFIs), including Indian financial institutions to provide the US Internal Revenue Service (IRS) with information and to report on the accounts held by specified US Persons as well as passive NFFEs in which controlling interest is held by specified US person. The term FFI is defined widely to cover a large number of non-US based financial service providers, such as mutual funds, depository participants, brokers, custodians, as well as banks. FATCA requires enhanced due diligence processes by the FFI so as to identify US reportable accounts.</p> <p>The identification of US person will be based on one or more of following “US indicia”-</p> <ul style="list-style-type: none"> • Identification of the Account Holder as a US citizen or resident; • Unambiguous indication of a US place of birth; • Current US mailing or residence address (including a US post office box); • Current US telephone number; • Standing instructions to transfer funds to an account maintained in USA; • Current effective power of attorney or signing authority granted to a person with a US address; or • An “in-care of” or “hold mail” address that is the sole address that the Indian Financial Institution has on the file for the Account Holder. <p>FATCA due diligence will be applicable to each unit holder (including joint holders) irrespective of the country of residence/citizenship, and on being identified as reportable person/specified US person, all folios/accounts will be reported. Such information may include (not limited to) their identity, direct or indirect beneficiaries, beneficial owners and controlling persons. Unit holders will therefore be required to comply with the request of the AMC / Fund to furnish such information as and when deemed necessary by the AMC / Fund in accordance with the Applicable Laws.</p> <p>FATCA provisions are relevant not only at on-boarding stage of unit holders but also throughout the life cycle of investment with the Mutual Fund. Unit holders therefore should immediately intimate to the Fund/the AMC, any change in their status with respect to FATCA related declaration provided by them previously.</p> <p>In case unit holder / investor fails to furnish the relevant information and/or</p>

	<p>documentation in accordance with the Applicable Laws, the AMC / Fund reserves the right to reject the application or redeem the units held directly or beneficially and may also require reporting of such accounts/levy of withholding tax on payments made to investors. Prospective investors / Unit holders should consult their own advisors to understand the implications of FATCA provisions/requirements. The AMC reserves the right to change/modify the provisions mentioned at a later date.</p> <p>Common Reporting Standard (CRS) – The New Global Standard for Automatic Exchange of Information.</p> <p>On similar lines as FATCA, the Organisation of Economic Development (OECD), along with the G20 countries, of which India is a member, has released a “Standard for Automatic Exchange of Financial Account Information in Tax Matters”, in order to combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, requiring cooperation amongst tax authorities. The G20 and OECD countries have together developed a Common Reporting Standard (CRS) on Automatic Exchange of Information (AEOI).</p> <p>All Applicants whose country of tax residence is not India shall fill in the prescribed FATCA & CRS Form.</p> <p>AMC reserves right to reject the application in case the applicant / investor fails to submit information /documentation for any of the above.</p> <p>Please refer to Instructions given in the FATCA/CRS Form before filling in the particulars and for further details relating to FATCA/CRS, refer to SEBI Circular Nos. applicable to monthly frequency will be applicable to Daily and Weekly frequencies. All other terms and conditions of Systematic Investment Plan will apply to the Daily and Weekly Frequencies.

UTI AMC/UTI Mutual Fund reserves the right to change/modify the terms and conditions of SIP or withdraw the facility at a later date.

1. ‘Step up’ facility:

Under this facility, an Investor can opt for stepping up his SIP amount at specified intervals (Half-yearly / Yearly). Upon exercising this option, the SIP debit amount will increase by the amount specified by the Investor at the Intervals opted.

For example, an Investor gives a SIP Mandate for 5 years in Scheme A for an amount of Rs.1,000/- which starts on August 1, 2020 and also opts for this ‘Step up’ facility with the interval frequency as ‘Yearly’ & SIP Step Up amount as Rs.1,000/-. In this case, the SIP will run as under:

SIP Period (Dates)	Regular SIP without ‘Step Up’ facility	With ‘Step Up’ facility of Rs.1,000/- as ‘Step Up’ amount and frequency as ‘Yearly’
From August 1, 2020 to July 31, 2021	Rs.1,000/-	Rs. 1,000/-
From August 1, 2021 to July 31, 2022	Rs.1,000/-	Rs. 2,000/-
From August 1, 2022 to July 31, 2023	Rs.1,000/-	Rs. 3,000/-
From August 1, 2023 to July 31, 2024	Rs.1,000/-	Rs. 4,000/-
	And So on.....	And So on.....

The Minimum SIP Step Up amount will be Rs.500/- and in multiples of Rs.100/-. If the ‘Step Up’ amount is mentioned and the ‘frequency’ is not mentioned, then the default frequency shall be taken as ‘Yearly’. Similarly, if the ‘frequency’ is mentioned and ‘Step Up’ amount is not mentioned, then the ‘Step Up’ amount shall be considered as Rs.500/-. The detailed terms and conditions are available in the respective Service Request Form.

Facility to Change the SIP from one eligible Scheme to another eligible Scheme under SIP facility / change in any attributes of SIP like changes in Date, Amount:

Under this facility, an Investor can opt to change the eligible scheme during the tenure of the SIP, without having to terminate the existing SIP. He may also change any of the attributes like SIP Date, SIP Amount during the existence of the SIP Period.

For example, an Investor who had opted for a tenure of 5 years for SIP in Scheme-A, after continuing the SIP for a period of say 3 years, can change the Scheme to Scheme-B for the rest of the period, instead of the existing process of cancelling the SIP Mandate of Scheme-A and giving fresh mandate for Scheme-B. The Scheme/s can be changed multiple times during the tenure of SIP.

Investors may avail this facility any time during the tenure of the SIP. The application for such changes should be submitted at least 15 days prior to the next SIP instalment amount due date.

2. Any Day SIP:

Investors can choose any date of his/her preference as SIP Debit Date. If in any month, the SIP Debit Date opted by the Investor is not available

(Say, 29th & 30th in February and 31st in case of alternate months), then the SIP Debit Date for those months shall be the last available Business Day in that month.

3. ‘Pause’ facility under Systematic Investment Plan (SIP)

The facility of ‘Pause’ under SIP is introduced from January 20, 2020 wherein the unit holder(s) who have registered their Systematic Investment Plan in any of the Schemes, can opt to Pause the SIP debits subject to terms and conditions defined hereunder.

(a) **Available Mode:**

The Pause facility is available for SIPs registered using any of the modes (Physical / Electronic). This facility will not be available for Mandates registered under Standing Instruction mode under Direct Debit arrangement.

(b) **Available Schemes:**

The Pause Facility is available in all the Schemes that are eligible for SIP.

(c) **Limitations:**

- i) SIP Pause can be opted only after payment of first 6 instalments from the start of SIP.
- ii) SIP Pause can be opted only 2 times during the entire life time of a SIP mandate.

(d) **Minimum and Maximum Duration of Pause:**

The ‘Pause’ facility can be exercised for the following duration, per instance:

Frequency of SIP	Minimum	Maximum
Daily/Weekly/Monthly	One Month	Six Months
Quarterly	90 days	180 days

(e) **Turnaround time for activation of Pause SIP:**

All the requests for Pause facility must be submitted at least 10 calendar days in advance of the next SIP Debit due date.

(f) **General Conditions:**

- i) SIP Debit will automatically resume after the completion of the Pause Period.
- ii) If Pause facility period coincides with Step Up registered in the SIP, the Stepped up amount will be debited after the closure of the Pause Period.

(g) **Termination of Pause Facility:**

Pause facility can be cancelled by submitting a signed request by the investor. Upon cancellation of the SIP Pause registered in the folio, the SIP Debits will automatically start.

(h) The Trustee reserves the right to change/modify the terms and conditions of Pause facility under SIP or withdraw the facility at a later date.

II. Systematic Withdrawal Plan (SWP)

Systematic Withdrawal Plan (SWP) will be available under the scheme.

The features of the Systematic Withdrawal Plan are as under.

(a) **Options of the SWP:** Monthly / Quarterly / Half Yearly / Annual options will be available under SWP.

(b) **SWP Dates: Any pre-specified date of every month.** In case the date falls on a holiday / book closure period, the next business day will be considered for this purpose.

However, if in any month, the SWP date opted by the Investor is not available (Say, 29th & 30th in February and 31st in case of alternate months), then the SWP for those dates shall be processed for the last available Business Day in that month.

SWP request will be registered and activated within T+1 working day from the date of clear funds available under the scheme.

(c) **Minimum Investment**

All the options i.e. monthly, quarterly, half yearly and annual options

will have the minimum investment amount as applicable. There is no maximum limit.

- (d) **Eligibility:** Investment under Growth option of the scheme are eligible. SWP will start after a cooling period of one month (excluding the month of investment).
- (e) **Methodology:** The amount of monthly / quarterly / half yearly / annual payment desired by the unitholder would have to be indicated in the application form subject to the following minimum limits.

Option	Minimum SWP (INR)	Thereafter in multiples of (INR)	Minimum no. of installments
Monthly	500	1	3
Quarterly	500	1	3
Half Yearly	500	1	3
Annual	500	1	3

Minimum amount of redemption: The redemption will continue till the outstanding amount in the folio is reduced to nil or such other amount as may be decided by UTI AMC from time to time. If the amount in the folio is less than the opted amount, the available amount will be paid to the unitholder. Further, if, say, the opted amount under SWP is Rs.1000/- and during the course of SWP, an amount of Rs.1500/- only is left in the account, the entire outstanding amount of Rs.1500/- may be paid out at one go, at the discretion of the UTI AMC. For the transactions through SWP, the provision of “Minimum Redemption amount” and “Minimum balance” as specified in the respective Scheme Information Document (SID) of the scheme will not be applicable.

- (f) **Redemption of units:** Based on the option viz. Monthly / Quarterly / Half Yearly / Annual opted for by the investor, appropriate number of units equivalent to the amount of the monthly / quarterly / half yearly / annual payment will be redeemed on First In First Out (FIFO) basis and the unit holder’s account will be debited to that extent on the first business day of each month / quarter / half year / annual, as the case may be. Redemption of units under SWP will be at NAV after deducting the applicable exit load for respective schemes.
- (g) **Withdrawal from SWP:** In case, any investor wants to withdraw from the SWP, he/she may do so by intimating UTI AMC in writing at least 15 days in advance of the next SWP date.
- (h) **Termination of SWP:** SWP will automatically get terminated under the following conditions:
 - I. The unit holding under the scheme becomes nil.
 - II. In the case of death of the first unit holder.
 - III. If the unit holder wishes to terminate at any time by sending a written request to Official Points of Acceptance. The request will be acted upon not later than 15 days after receipt of the letter.
- (i) **Receipt by unitholder to discharge UTI AMC**
The receipt by the unitholder for any amount paid to him/her in respect of the outstanding units shall be deemed to be a good discharge to the UTI AMC.

III. Transfer of IDCW Plan:

The features are as under.

- (a) This is a facility wherein unit holder(s) of eligible scheme(s) [hereinafter referred to as “Source Scheme(s)”] of UTI Mutual Fund can opt to automatically invest the IDCW (as reduced by the amount of applicable statutory levy) declared by the eligible Source Source(s) into other eligible Scheme(s) [hereinafter referred to as “Target Scheme(s)”] of UTI Mutual Fund.
- (b) This facility is available to unit holder(s) under all Income Distributions Plan(s)/ IDCW Plan(s) / Option(s) except Daily Payout of Income Distribution cum capital withdrawal option of the Source Scheme(s). Unit holder(s)' enrolled under the this facility will automatically override

	<p>any previous instructions for ‘Payout of IDCW Option’ or ‘Reinvestment of IDCW Option’ in the Source Scheme. Target Scheme can be any plan/option as mentioned under the Scheme Information Document (SID) of respective schemes.</p> <p>(c) The enrolment for this facility should be for all units under the respective Income Distribution/Option(s) of the Source Scheme. Instructions for part transfer of Income Distribution and part Payout of Income Distribution/Reinvestment of Income Distribution will not be accepted. The IDCW amount will be invested in the Target Scheme under the same folio. Accordingly, the unit holder(s) details and mode of holding in the Target Scheme will be same as in the Source Scheme.</p> <p>(d) The enrolment to avail the facility has to be specified for each scheme / Plan / Option separately and not at the folio level.</p> <p>(e) Under Transfer of IDCW Plan, IDCW declared (as reduced by the amount of applicable statutory levy) in the Source scheme (subject to minimum of Rs.1,000/-) will be automatically invested into the Target Scheme, as opted by the unit holder, on the immediate next Working Day after the Record Date at the applicable NAV of the Target Scheme, subject to applicable load and accordingly equivalent units will be allotted in the Target Scheme, subject to the terms and conditions of the respective Target Scheme.</p> <p>For example: If the IDCW Record Date of the Source Scheme is January 22 (Friday) and the next Working Day of the Target Scheme (non-Liquid scheme) is January 25 (Monday), the unit holder will be allotted units in the Target Scheme at the closing NAV of January 25 (Monday).</p> <p>(f) The provision for 'Minimum Application Amount' specified in the respective Target Scheme's Scheme Information Document will not be applicable under Transfer of IDCW Plan.</p> <p>(g) The Minimum amount of IDCW eligible for transfer under Transfer of IDCW Plan is Rs.1,000/- (Rupees One Thousand Only). <p>Creation of Segregated Portfolio</p>	<p>Creation of segregated portfolio shall be subject to guidelines specified by SEBI from time to time and includes the following:</p>

In order to ensure fair treatment to all investors in case of a credit event and to deal with liquidity risk, SEBI has allowed creation of segregated portfolio of debt and money market instruments by mutual fund schemes.

The term ‘segregated portfolio’ shall mean a portfolio, comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme. The term ‘main portfolio’ shall mean the scheme portfolio excluding the segregated portfolio. The term ‘total portfolio’ shall mean the scheme portfolio including the securities affected by the credit event.

Procedure to create a segregated portfolio

The term ‘segregated portfolio’ shall mean a portfolio, comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme. The term ‘main portfolio’ shall mean the scheme portfolio excluding the segregated portfolio. The term ‘total portfolio’ shall mean the scheme portfolio including the securities affected by the credit event.

A. UTI AMC may create segregated portfolio in the aforesaid scheme subject to the following:

1. Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:
 - a) Downgrade of a debt or money market instrument to ‘below investment grade’, or
 - b) Subsequent downgrades of the said instruments from ‘below investment grade’, or
 - c) Similar such downgrades of a loan rating.
2. Segregated portfolio may be created on an event as specified by SEBI from time to time.
3. In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as detailed above and implemented at the ISIN level.
4. In case of unrated debt or money market instruments of an issuer that does not have any outstanding rated debt or money market instruments, segregated portfolio of such unrated debt or money market instruments may be created only on actual default of either the interest or principal amount.
5. Creation of segregated portfolio shall be optional and at the discretion of UTI AMC subject to provisions of SID.

B. Process for creation of segregated portfolio

1. In case UTI AMC decides on creation of segregated portfolio on the day of credit event it shall-
 - a) seek approval of trustees prior to creation of the segregated portfolio.
 - b) immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors and also disclose that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of UTI MF.
 - c) ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
2. **Once trustee approval is received by UTI AMC,**
 - a) Segregated portfolio shall be effective from the day of credit event.
 - b) UTI AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
 - c) An e-mail or SMS should be sent to all unit holders of the concerned scheme.
 - d) The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event.

	<p>e) All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.</p> <p>f) No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, UTI AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.</p> <p>3. If the trustees do not approve the proposal to segregate portfolio, UTI AMC shall issue a press release immediately informing investors of the same.</p> <p>C. Valuation and processing of subscriptions and redemptions</p> <p>1. Notwithstanding the decision to segregate the debt and money market instrument, the valuation should take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.</p> <p>2. All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:</p> <p>a) Upon trustees' approval to create a segregated portfolio -</p> <p>i) Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.</p> <p>ii) Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.</p> <p>b) In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.</p> <p>D. Disclosure Requirements</p> <p>In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:</p> <p>1. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.</p> <p>2. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.</p> <p>3. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.</p> <p>4. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, UTI AMC and AMFI websites, etc.</p> <p>5. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.</p> <p>6. The disclosures for above points 4 & 5 regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.</p> <p>7. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.</p> <p>E. TER for the Segregated Portfolio</p> <p>1. UTI AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can</p>
--	--

- be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
2. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
 3. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by UTI AMC.
 4. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

F. Monitoring by Trustees

1. In order to ensure timely recovery of investments of the segregated portfolio, trustees shall ensure that:
 - a) The AMC puts in sincere efforts to recover the investments of the segregated portfolio.
 - b) Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.
 - c) An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio is placed in every trustee meeting till the investments are fully recovered/ written-off.
 - d) The trustees shall monitor the compliance of this circular and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect of every segregated portfolio created.
2. In order to avoid mis-use of segregated portfolio, trustees shall ensure to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.

G. Risks associated with segregated portfolio

1. Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
2. Security comprises of segregated portfolio may not realise any value.
3. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

SEBI, vide circular No. SEBI/HO/MIRSD/CRADT/CIR/P/2020/160 dated August 31, 2020 has provided that if the CRA is of the view that the restructuring by the lenders/ investors is solely due to COVID-19 related stress or under the aforementioned RBI framework, CRAs may not consider the same as a default event and/or recognize default.

Considering the above and in partial modification to aforementioned circular dated December 28, 2018, the date of proposal for restructuring of debt received by AMCs shall be treated as the trigger date for the purpose of creation of segregated portfolio.

C. COMPUTATION OF NAV

- (a) The Net Asset Value (NAV) of the scheme shall be calculated by determining the value of the scheme’s assets and subtracting therefrom the liabilities of the scheme taking into consideration the accruals and provisions. NAV shall be declared separately for the different Plans and Options of the scheme.
- (b) The NAV per unit of the scheme shall be calculated by dividing the NAV of the scheme by the total number of units issued and outstanding on the date of calculation under the scheme. The NAV shall be rounded off upto four decimal places for the scheme.

NAV of the Units under the Scheme shall be calculated as shown below:-

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No of Units outstanding under Scheme on the Valuation Date}}$$

The NAV under the Scheme would be rounded off to 4 decimals and Units will be allotted upto three decimal places or such other formula as may be prescribed by SEBI from time to time.

Methodology for Calculation of Sale and Re-purchase price of the units of mutual fund scheme

a) In case of Purchase of mutual fund units

As per existing regulation, no entry load is charged with respect to applications for purchase / additional purchase of mutual fund units. Therefore, Computation of Sale Price is as below:

NAV	10.00
Entry Load	Not Applicable
Sale Price	10.00

This also means, Sale Price = NAV as on date of investment

b) Redemption/ Repurchase of mutual fund units

In case of redemption, repurchase price is calculated as below

Repurchase Price = NAV as on date of redemption - exit load (if applicable)

c) Illustration showing how repurchase price is calculated under 2 different scenarios-

Amount Invested- Rs.10,000/-

Date of Investment- 1st April 2022

NAV as on date of investment- Rs.10/- per unit

Exit load- For exit on or before 12 months from the date of allotment- 1%

For exit after 12 months from the date of allotment- Nil

No of units allotted at the time of purchase

Amount invested

$$= \frac{\text{Amount invested}}{\text{NAV of the scheme on the date of investment}}$$

$$= 10,000 / 10 = 1000 \text{ units}$$

Particulars	Scenario I	Scenario II
	Redemption during applicability of exit load	Redemption in case of Nil Exit load
Date of Redemption	On or before 31st March 2023	After 31st March 2023
NAV as on date of redemption	Rs. 12	Rs.12
Applicable Exit load	1%	Nil
Repurchase Price (NAV as on date	Rs.12 - (Rs.12*1%)	Rs.12- (Nil)

of redemption-Exit load)		
Repurchase Price on date of Redemption	Rs.11.88	Rs.12
Redemption Amount payable to investors (no of units allotted x Repurchase Price)	Rs.11.88 x 1000 = Rs.11,880/-	Rs.12 x 1000 Rs.12,000/-

Note- This is only for illustration purpose. Actual Exit load charged in the Scheme may vary.
The above mentioned example does not take into consideration any applicable statutory levies and taxes.

- (c) A valuation day is a day other than (i) Saturday and Sunday (ii) a day on which both the stock exchanges (BSE and NSE) and the banks in Mumbai are closed (iii) A day on which the purchase and redemption of units is suspended. If any business day in UTI AMC, Mumbai is not a valuation day as defined above then the NAV will be calculated on the next valuation day and the same will be applicable for the previous business day’s transactions including all intervening holidays.
- (d) The Mutual Fund shall declare the Net asset value separately for both the Plans by 11 p.m. on every business day on the website of UTI Mutual Fund, www.utimf.com and on AMFI’s web-site www.amfiindia.com. The Mutual Fund shall prominently disclose the NAVs of the scheme under a separate head on the website and on the website of Association of Mutual Funds in India (AMFI). Further, the Mutual Fund will extend facility of sending latest available NAVs to unit holders through SMS, upon receiving a specific request in this regard.

IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the Scheme.

A. ANNUAL SCHEME RECURRING EXPENSES:

- (1) These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents’ fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.25% of the daily net assets of the scheme will be charged to the scheme as expenses. The current expense ratios would be updated on the website of UTI Mutual Fund at least three working days prior to the effective date of the change. Investors can refer <https://www.utimf.com/forms-and-downloads/> and website of AMFI namely www.amfiindia.com for Total Expense Ratio (TER) details.

Particulars	% of Net Assets
	UTI Focused Equity Fund – Regular Plan
Investment Management and Advisory Fees	Upto 2.25%
Trustee Fee	
Audit Fees	
Custodian Fees	
RTA Fees	
Marketing and Selling expense including agent commission	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost of providing account statements and IDCW redemption cheques and warrants	
Costs of statutory Advertisements	
Cost towards investor education and awareness (at least 2 bps)	
Brokerage and transaction cost over and above 12 bps and 5 bps of trade value for cash and derivative market trades resp.	
Goods and Services Tax (GST) on expenses other than investment and advisory fees	
Goods and Services Tax (GST) on brokerage and transaction cost	
Other Expenses	
Maximum total expense ratio (TER) permissible under Regulations 52 (6) (c)	Upto 2.25%
Additional expenses for gross new inflows from specified cities under Regulation 52(6A)(b)	Upto 0.30%

Note: Direct Plan (investment not routed through a distributor) under the scheme shall have a lower expense ratio excluding distribution expenses, commission etc. and no commission shall be paid from such Plan. Portfolio of the Scheme under the Regular Plan and Direct Plan will be common.

The TER of the Direct Plan will be lower to the extent of the distribution expenses/ commission which is charged in the Regular Plan.

All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.

The purpose of the table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly. These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per the SEBI (MF) Regulations.

- (2) The total annual recurring expenses of the scheme excluding redemption expenses but including the Investment Management and Advisory Fees shall be subject to the following limits:

Daily Net Assets of the scheme	% of Net Assets
on the first Rs.500 crores of the daily net assets	2.25%
on the next Rs.250 crores of the daily net assets	2.00%
on the next Rs.1,250 crores of the daily net assets	1.75%
on the next Rs.3,000 crores of the daily net assets	1.60%
on the next Rs.5,000 crores of the daily net assets	1.50%
on the next Rs.40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net asset or part thereof.
on balance of the assets	1.05%

(3) Total Expense Ratio (TER) and Additional Total Expenses:

(i) Charging of additional expenses

- (i) Additional TER shall be charged up to 30 bps on daily net assets of the scheme if the new inflows from Retail Investors beyond top 30 cities (as per SEBI Regulations/Circulars/AMFI data) are at least (a) 30% of gross new inflows from Retail Investors in the scheme or (b) 15% of the Average Assets under Management (Year to date) of the scheme, whichever is higher. The additional TER on account of inflows from Retail Investors beyond top 30 cities so charged shall be clawed back in case the same is redeemed within a period of 1 year from the date of investment. The same can be used only for distribution expenses incurred for bringing inflows from such cities.
2. In case inflows from Retail Investors beyond top 30 cities is less than the higher of (a) or (b) above, additional TER on daily net assets of the scheme shall be charged as follows:

$$\frac{\{(\text{Daily net assets}) \times (30 \text{ basis points}) \times (\text{New inflows from Retail Investors from beyond top 30 cities})\}}{365^* \times \text{Higher of (a) or (b) above}}$$

* 366, wherever applicable.

Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

4. The ‘AMC fees’ charged to the scheme with no sub-limits will be within the TER as prescribed by SEBI Regulations.
5. In addition to the limits indicated above, brokerage and transaction costs not exceeding
 1. 0.12% of trade value in case of cash market transactions, and
 2. 0.05% of trade value in case of derivatives transactions

shall also be charged to the scheme/plans. Aforesaid brokerage and transaction costs are included in the cost of investment which is incurred for the purpose of execution of trade. Any payment towards brokerage and transaction cost, over and above the aforesaid brokerage and transaction costs shall be charged to the scheme/plans within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

(ii) Goods and Services Tax (GST)

- a. UTI AMC shall charge GST on investment and advisory fees to the scheme in addition to the maximum limit of TER.
- b. GST on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER.
- c. GST on exit load, if any, shall be paid out of the load proceeds. Exit load, net of GST, if any, shall be credited to the scheme.
- d. GST on brokerage and transaction cost paid for asset purchases, if any, shall be within the limit prescribed under SEBI Regulations.

(iii) Investor Education and Awareness

UTI Mutual Fund (UTI MF) shall annually set apart atleast 2 bps on daily net assets within the maximum limit of TER for investor education and awareness initiatives.

(iv) Illustration of impact of expense ratio on scheme’s returns

Simple illustration to describe the impact of the expense ratio on returns of the scheme.

	Particulars	Regular Plan	Direct Plan
A	Amount invested (Rs.)	10,000	10,000
B	Gross returns – assumed	14%	14%
C	Closing NAV before expenses (Rs.)	11400	11400
D	Scheme Expenses (Rs.)	150	150
E	Distribution Expenses (Rs.)	50	0
F	Total NAV after charging expenses (C-D-E)	11200	11250
G	Net returns to investor	12.0%	12.5%

- As per SEBI Regulation expenses are charged to the scheme on daily basis on daily net assets and as per percentage limits specified by SEBI.
- The illustration is to simply describe the impact of expenses charged to the Scheme on schemes returns and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- The above calculations are based on assumed NAVs, and actual returns on investment would be different.

(v) Change in expense ratio

AMCs shall prominently disclose on a daily basis, the TER (scheme-wise, date-wise) of all schemes under a separate head – “Total Expense Ratio of Mutual Fund Schemes” on their website and on the website of AMFI in a downloadable spreadsheet format.

Any change in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996 and Goods and Services Tax on investment and advisory fees) in comparison to previous base TER charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change. Provided that any increase or decrease in TER in a mutual fund scheme due to change in AUM and any decrease in TER in a mutual fund scheme due to various other regulatory requirements would not require issuance of any prior notice to the investors.

The above change in the base TER in comparison to previous base TER charged to the scheme shall be intimated to the Board of Directors of AMC along with the rationale recorded in writing.

The changes in TER shall also be placed before the Trustees on quarterly basis along with rationale for such changes.

B. LOAD STRUCTURE

1. Exit Load is an amount which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. There will not be any distinction among unit holders should be made based on the amount of subscription while charging exit loads. Any imposition or enhancement in the load shall be applicable on prospective investments only. For the current applicable structure, please refer to the website of the AMC www.utimf.com or call at 1800 266 1230 (toll free number) or (022) 6227 8000 (non toll free number) or your distributor.

Entry and Exit Load for the Scheme

Entry Load (As % of NAV)	Exit Load (As % of NAV)	
Nil (Not Applicable as per SEBI guidelines)	Less than one year	1%
	Greater than or equal to one year	Nil

2. In accordance with the requirements specified by the SEBI circular no. SEBI/IMD/CIR No./168230/09 dated June 30, 2009 no entry load will be charged for purchase/additional purchase /switch-in accepted by the Fund. Similarly, no entry load will be charged with respect to applications for registrations under Systematic Investment Plans/Systematic Transfer Investment Plans accepted by the Fund.

Switch in/out, Systematic Investment Plan (SIP) and Systematic Transfer Investment Plan (STRIP) will also attract Load like regular Purchases and Redemption.

The AMC reserves the right to change/modify exit/switchover load, depending upon the circumstances prevailing at any given time. A load structure when introduced by the AMC may comprise of exit load and/or switchover load as may be permissible under the SEBI Regulations. The load may also be changed from time to time and in the case of an exit/redemption load this may be linked to the period of holding. The switchover load may be different for different plans. However, any such change in the load structure shall be applicable on prospective investment only.

The investor is requested to check the prevailing load structure of the Scheme before investing.

For any change in load structure, AMC will issue an addendum and display it on the website / UTI Financial Centres.

Transaction charges

Pursuant to SEBI circular no. CIR/IMD/DF/13/2011 dated August 22, 2011, a transaction charge of Rs.100/- for existing investors and Rs.150/- in the case of first time investor in Mutual Funds, per subscription of Rs.10,000/- and above, respectively, is to be paid to the distributors of UTI Mutual Fund products. However, there shall be no transaction charges on direct investment/s not made through the distributor/financial advisor etc.

There shall be no transaction charge on subscription below Rs.10,000/-.

In case of SIPs, the transaction charge shall be applicable only if the total commitment through SIPs amounts to Rs.10,000/- and above. In such cases, the transaction charge shall be recovered in 3-4 installments.

The transaction charge, if any, shall be deducted by UTI AMC from the subscription amount and paid to the distributor and the balance shall be invested. Allocation of Units under the Scheme will be Net of Transaction Charges. The Statement of Account (SoA) would also reflect the same.

If the investor has not ticked in the Application form whether he/she is an existing/new investor, then by default, the investor will be treated as an existing investor and transaction charges of Rs.100/- will be deducted for investments of Rs.10,000/- and above and paid to distributor/financial advisor etc., whose information is provided by the investor in the Application form. However, where the investor has mentioned ‘Direct Plan’ against the Scheme name, the Distributor code will be ignored and the Application will be processed under ‘Direct Plan’ in which case no transaction charges will be paid to the distributor.

Opt in/Opt out by Distributors:

Distributors shall be able to choose to opt out of charging the transaction charge. However the ‘opt out’ shall be at distributor level and not at investor level i.e., a distributor shall not charge one investor and choose not to charge another investor.

Distributors shall also have the option to either opt in or opt out of levying transaction charge based on category of the product. The various category of product are as given below:

Sr. No.	Category of product
1	Liquid/ Money Market Schemes
2	Gilt Schemes
3	Debt Schemes
4	Infrastructure Debt Fund Schemes
5	Equity Linked Saving Schemes (ELSS)
6	Other Equity Schemes
7	Balanced Schemes
8	Gold Exchange Traded Funds
9	Other Exchange Traded Funds
10	Fund of Funds investing Overseas
11	Fund of Funds – Domestic

Where a distributor does not exercise the option, the default Option will be Opt–out for all above categories of product. The option exercised for a particular product category will be valid across all Mutual Funds.

The ARN holders, if they so desire, can change their option during the special two half yearly windows available viz. March 1st to March 25th and September 1st to September 25th and the new option status change will be applicable from the immediately succeeding month.

3. Any imposition or enhancement of exit load shall be applicable on prospective investments only. The AMC shall not charge any load on issue of units allotted on reinvestment of IDCW for existing as well as prospective investors.

At the time of changing the exit load structure, the Mutual Fund shall consider the following measures to avoid complaints from investors about investment in the Scheme without knowing the exit load:

- (i) The addendum detailing the changes shall be attached to the Scheme Information Documents and Key Information Memorandum. The addendum shall be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memorandum already in stock.
- (ii) Arrangements shall be made to display the addendum in the Scheme Information Document in the form of a notice in all the official points of acceptance and distributors/brokers office.
- (iii) The introduction of the exit load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and shall also be disclosed in the statement of accounts issued after the introduction of such load.
- (iv) A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated.
- (v) Any other measures which the Mutual Fund may feel necessary.

UTI AMC Ltd.

- 1) There are 10 criminal cases pending related to normal operations of the schemes of UTI MF such as non-transfer of units, non-receipt of unit certificates, non-receipt of redemption proceeds or income distribution, closure of scheme/plan. These cases are not maintainable and judging from our experience such cases are generally dismissed by Courts or withdrawn by the complainant.

Most of the cases were filed in the name of the then Manager/Branch Manager/Chairman of the erstwhile Unit Trust of India. All these cases have been settled by paying the amount/issuing certificate to the complainant. However, cases are continuing due to procedural aspect as final orders of the Courts are to be pronounced. Most of these cases were filed before the year 2003, which stood transferred to the successor of UTI in terms of The Unit Trust of India (Transfer of Undertaking & Repeal Act) 2002.

- 2) There are 42 cases pending at different courts related to suits/petitions filed by a) contract workmen, b) employees association, c) employees/ex-employees etc. These cases are pending at different levels for adjudication.
