

Richest nations agree to freeze poorer's debt

ASSOCIATED PRESS
Johannesburg, April 15

THE WORLD'S RICHEST countries agreed on Wednesday to freeze poor nations' debt obligations, shortly after nearly 20 European and African leaders made a joint appeal for a massive international effort to boost Africa's coronavirus response, saying that "only a global victory that fully includes Africa can bring this pandemic to an end."

Finance ministers of the G-20 group of major economies, which includes the US, China, India and others, said they will immediately put on hold poor countries' obligations to service debt they owe. The statement issued after a video conference put to rest concerns that China would block such a measure, which is aimed at helping the poorest nations focus their spending on healthcare and assistance to vulnerable people to contain the outbreak and its fallout.

The joint appeal signed by the leaders of France, Ethiopia, Germany, South Africa and other nations, published in the *Financial Times*, had called for dramatic measures that include an immediate moratorium on all debt payments, public and private, until the pandemic is over.

EU launches virus exit plan, hoping to avoid more chaos

ASSOCIATED PRESS
Brussels, April 15

THE EUROPEAN UNION moved on Wednesday to head off a chaotic and potentially disastrous easing of restrictions that are limiting the spread of the coronavirus, warning its 27 nations to move very cautiously as they return to normal life and base their actions on scientific advice.

With Austria, the Czech Republic and Denmark already lifting some lockdown measures, the EU's executive arm, the European Commission, rushed out its roadmap for members of the world's biggest trade bloc to coordinate an exit from the lockdowns, which they expect should take at least a few months and involve large-scale testing.

Some 80,000 people have now died in Europe from the disease — about two-thirds of the global toll — according to the European Centre for Disease Prevention and Control. The commission said those scientists should be relied upon to guide national exit strategies in the weeks and months to come.

Brussels is deeply concerned about the damage that could be done if each EU nation charts its own course, given the panic that ensued after the pandemic first spread in Italy, with unannounced border closures that sparked massive traffic jams and export bans that deprived hard-hit countries of medical equipment.

Apple data show virus impact on movement

APPLE HAS LAUNCHED a new website that shows with striking graphs how the coronavirus pandemic has slammed the brakes on life around the world. The tool visualises the movement of people in dozens of major cities and countries around the world based on the number of requests made for direc-

tions on Apple Maps since January 13. It shows the dramatic drop in the number of users driving, walking or taking public transit as governments around the world rolled out increasingly stringent containment measures to stop the spread of the deadly virus. —AFP
